Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 177—L. C., dated 26th December 1908.

Under rule 31 of the rules for the conduct of business of the Mysore Legislative Council, the following bill together with a statement of objects and reasons therefor is published for general information.

By Order,

S. HIRIYANNAIYA,
Secy., Legislative Council.

A Bill to recognize the representative character of the Administrator General of Madras.

Preamble.

Whereas the provisions of the Administrator General's Act, 1874 (II of 1874), of the Governor General of India in Council apply as a personal law only to British subjects in the territories of Mysore and whereas it is expedient to make better provision for the recognition in the said territories of the representative title of the Administrator General of Madras against all debtors of, and all persons holding property belonging to, deceased British subjects in the said territories; His Highness the Maharaja is pleased to enact as follows:—

Administrator General competent to represent deceased British subjects and to have preferential right to letters of administration.

1. The Administrator General of the Presidency of Madras as defined in the Administrator General's Act, 1874 (II of 1874), shall be competent to represent a deceased British subject leaving assets in the territories of Mysore and shall be deemed by all the courts in the said territories to have a right to letters of administration to such British subject in preference to that of any other person merely on the ground of his being a creditor, a legatee other than a universal legatee or a friend of the deceased.

Effect of probate or letters of Administration granted to the Administrator General by the High Court of Judicature, Madras.

2. Probate or Letters of administration granted by the High Court of Judicature at Madras to the Administrator General of Madras shall have effect over all the property and estate, moveable or immoveable, of a deceased British subject in the territories of Mysore, and shall be conclusive as to the representative title of the said Administrator General against all debtors of the deceased and all persons holding property therein which belongs to him, and shall afford full indemnity to all debtors paying their debts and all persons delivering up such property to the said Administrator General.

High Court of Judicature at Madras deemed to be a Court of competent jurisdiction within the meaning of Sections 187 and 190 of the Indian Succession Act.

3. So far as regards the Administrator General of Madras, the High Court of Judicature at Madras shall be deemed to be a Court of competent jurisdiction within the meaning of sections 187 and 190 of the Indian Succession Act, 1865 (X of 1865), as applied to the territories of Mysore by Foreign Department Notification No. 203, dated the 23rd July 1868.

Probate or letters of administration granted by the High Court of Judicature at Madras deemed to be Probate or Letters within the meaning of the Succession Certificate Regulation.

4. Probate or letters of administration granted by the High Court of Judicature at Madras to the Administrator General of Madras shall be deemed to be probate or letters of Administration within the meaning of Section 4, sub-section (b), clause (i) of the Succession Certificate Regulation, VII of 1901.

Administrator General may sue and be sued in his representative character as such.

5. All suits and other proceedings commenced by or against the Administrator General of Madras in his representative character in respect of property belonging to a deceased British subject in the territories of Mysore may be brought by or against him by his name of office in the Courts of the said territories, and no suit or other proceeding heretofore or hereafter commenced by or against any person as the Administrator General of Madras, either alone or jointly with any other person, shall abate by reason of the death, resignation or removal from office of the said Administrator General, but the same may, by order of the said Courts and upon such terms as to the service of notices or otherwise as the Courts may direct, be continued by or against his successor immediately upon his appointment in the same manner as if no such death, resignation or removal had occurred.

Proviso.

Provided that nothing hereinbefore contained shall render any such successor personally liable for any costs incurred prior to the order for continuing the suit against him.

Creditor's suit against Administrator General.

6. If any suit be brought in the Courts of the territories of Mysore by a creditor against the Administrator General of Madras in his representative character, the plaintiff shall be liable to pay the costs of the suit down to and including the decree, unless upon proof by affidavit or otherwise that not less than one month previous to the institution of the suit he had applied in writing to the said Administrator General, stating the amount and other particulars of the claim and supporting the same by such evidence as, under the circumstances of the case, the Administrator General was reasonably entitled to require, and that the Administrator General had refused or neglected to register the claim according to the practice of his office.

If in any such suit judgment is pronounced in favor of the plaintiff, he shall, nevertheless, be only entitled to payment out of the assets of the deceased equally and rateably with other creditors.

STATEMENT OF OBJECTS AND REASONS.

The subject of the recognition of the status of the Administrator General of Madras in regard to effects left by deceased British subjects in Mysore has been engaging the attention of Government ever since the year 1902, when the Administrator General laid claim to certain sums of money which stood in the Government Savings Banks at Bangalore and Mysore in the name of certain deceased British Subjects.

Section 1 of the Administrator General's Act, II of 1874, under which the above claim was preferred, makes it applicable as regards British Subjects even to the dominions of Princes and States in India in alliance with His Majesty. But being merely an enactment of the British Legislature and not having been extended to Mysore by an authority competent to do so, the Act cannot be regarded as a part of the territorial laws of the State, so that, though it may be binding on British Subjects residing in Mysore as a personal law some authority recognized by the law of the State would be required before payments of debts due to such a subject can be lawfully enforced or can operate as a valid discharge therefrom to the payers thereof. Further, under the Savings Bank Act, V of 1873, Section 4, the Secretary of a bank is not authorized to pay deposit moneys exceeding Rs. 1,000 in amount in the absence of a Succession Certificate or a probate or letters of administration granted by the Courts of the State. The status of the Administrator General has, however, been recognized to a certain limited extent by Section 4 of the Succession Certificate Regulation, VII of 1901, and it is now deemed expedient to go a little further and to pass a Regulation recognizing the representative character of the said Administrtor General against all debtors of and all persons holding property belonging to deceased British Subjects in Mysore; and for this purpose to frame a law on the lines of the rules framed in this behalf for the Civil and Military Station by the Government of India, instead of introducing the Act II of 1874 as a whole.

The bill enacts that the Administrator General shall be competent to represent a deceased British subject leaving assets in Mysore (Cl. 1) upon probates or letters of administration granted by the High Court of Judicature at Madras (Cl. 3); that he shall be considered by the Courts of the State as having a preferential right to letters of administration (Cl. 1). Under clause 4, the probate or letters of administration granted to the Administrator General by the said High Court shall be deemed to be probate or letters of administration granted under the Succession Certificate Regulation, VII of 1901, which shall have effect over the property, moveable and immoveable, of the deceased and shall be conclusive as to the representative title of the Administrator General against all debtors of the deceased and all persons holding property belonging to him and shall afford full indemnity to debtors paying the debts due to and persons delivering up property belonging to the deceased (Cl. 2).

Clause 5 enacts that the Administrator General may sue and be sued in his representative character. Under clause 6, creditors of the deceased British subject are required to prefer a previous written application to the Administrator General before taking steps to enforce their claims through a Civil Court.

No. J. 1898—*Legis., dated 6th January* 1909.

With reference to Sub-Section (3) of Section 1 of the Mysore Village Offices Regulation, IV of 1908, which received the assent of His Highness the Maharaja on the 16th October 1908, the Government of His Highness the Maharaja are pleased to direct that the Regulation shall come into force with effect from the 1st July 1909.

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

REGULATION No. VI OF 1908.

(RECEIVED THE ASSENT OF HIS HIGHNESS THE MAHARAJA ON THE 26TH DAY OF DECEMBER 1908.)

A Regulation to amend the Mysore Registration Regulation, I of 1903.

Preamble. Whereas it is expedient to amend the Mysore Registration Regulation, I of 1903; His Highness the Maharaja is pleased to enact as follows :—

Amendment of section 88 of the Registration Regulation. (1) In para 1 of section 88, the words "or the Deputy Post Master General" shall be inserted after the words "Post Master General."

(2) In para 2 of the same section, the word "or" after "Registrar" shall be omitted and the words "or Deputy Post Master General" shall be inserted after the words "Post Master General."

REGULATION No. I OF 1909.

(RECEIVED THE ASSENT OF HIS HIGHNESS THE MAHARAJA ON THE 11TH DAY OF JANUARY 1909.)

A Regulation further to amend the Mysore Land Revenue Code, IV of 1888.

Preamble. Whereas it is expedient further to amend the Mysore Land Revenue Code, 1888; His Highness the Maharaja is pleased to enact as follows :—

Addition of section 210A to Regulation, IV of 1888. 1. The following section shall be inserted after section 210 of the Mysore Land Revenue Code, 1888 :—

"210 A. Notwithstanding anything contained in this Regulation, the Government may at any stage withdraw any appeal or class of appeals pending before the Revenue Commissioner, and dispose of the same, or retransfer the same for disposal to the Revenue Commissioner."

Power to Government to withdraw appeals from the Revenue Commissioner.

V. P. MADHAVA RAO,
Dewan.

STATEMENT OF OBJECTS AND REASONS.

The object of the amendment is to empower the Government to withdraw from time to time any appeal or class of appeals from the file of the Revenue Commissioner and dispose of the same itself, *i.e.*, (by a Committee of the Executive Council) or retransfer any such appeal when necessary to the Revenue Commissioner. Such a power, which is analogous to that possessed by all High Courts, Chief Courts and District Courts under section 24 of the New Civil Procedure Code enacted for British India has been obviously found to be a desirable addition to the ordinary revenue procedure of the State. It is also very urgently required just now in order that the Revenue Commissioner may have sufficient relief from his ordinary duties to be able to devote adequate time and attention to his famine work which is on the increase.

NOTIFICATION.

No. 208—L. C., dated 12th January 1909.

Under Rule 31 of the rules relating to the conduct of business of the Mysore Legislative Council, the following bill together with a statement of objects and reasons therefor is published for general information.

By Order
S. HIRIYANNAIYA,
Secy., Mysore Legislative Council.

Bill further to amend the Mysore Chief Court Regulation, 1884.

Whereas it is expedient further to amend the Mysore Chief Court Regulation, 1884; His Highness the Maharaja is pleased to enact as follows :—

Preamble.

Substitution of a new paragraph for the last paragraph of section 3.

1. The following shall be substituted for the last paragraph of section 3, *viz.*,

" 'Full Bench' means a Bench consisting of not less than three Judges of the Chief Court."

STATEMENT OF OBJECTS AND REASONS.

Under orders passed by Government in Notification No. J. 1408—Cts. 114-08-2, dated the 18th November 1908, the Chief Court will for some time to come consist of four Judges. Section 3 of the Mysore Chief Court Regulation, 1884, defines a "Full Bench" as a Bench consisting of all the Judges of the Chief Court. This definition, if retained, will cause a practical difficulty, as in a Full Bench of four Judges, there may not be a majority to decide any point on which a difference of opinion exists among the members of the Bench.

In the High Courts in India, a Full Bench is not composed of all the Judges of the Courts but consists of five Judges in Calcutta and of not less than three Judges in the other High Courts. It is therefore proposed to amend the section by defining a Full Bench as a Bench consisting of three Judges.

REGULATION No. II OF 1909.

(RECEIVED THE ASSENT OF HIS HIGHNESS THE MAHARAJA ON THE 11TH DAY OF JANUARY 1909.)

A Regulation further to amend the City of Mysore Improvement Regulation, 1903.

Preamble.

Whereas it is expedient further to amend the City of Mysore Improvement Regulation, 1903; His Highness the Maharaja is pleased to enact as follows :—

References to Regulations of 1871 changed to references to Mysore Municipal Regulation, 1906.

1. The references to the Municipal Regulations of 1871 shall be changed to references to the Mysore Municipal Regulation, 1906.

Substitution of "Municipal Council," etc., for "Municipal Commission," etc.

2. In sections 4, 5, 7, 16, 19, 21, 24, 26, 30, 31, 33, 37 and 38, for the words "Municipal Commission," "Municipal Commissioner" and "Municipal Commissioners," there shall be substituted, respectively, the words "Municipal Council," Municipal Councillor" and "Municipal Councillors."

Amendment of section 4.

3. In section 4 relating to the constitution of the Board, the word "nine" shall be substituted for the word "eight," and the words "the Health Officer of the Mysore City Municipality, the Deputy Sanitary Commissioner to the Government," shall be substituted for the words "the Civil Surgeon for the time being of the Mysore District."

Substitution of a new section for section 20.

4. For section 20, the following shall be substituted.

Board may exercise certain powers of Municipal Councillors in regard to streets, drains, privies, sewers, etc., services of notices etc., and execution of works and recovery of cost.

"20. The provisions of sections 41, 50, 90 to 93, 113, 116, 118, 119 and 121 to 125 of the Municipal Regulation, VII of 1906, in regard to streets; of sections 99 to 105, 107(1), 108 109, 111 and 112 in regard to drains, privies, sewers etc.; of section 154 in regard to the service of notices etc.; and of section 156 in regard to the execution of works when the owner or occupier fails to execute the same and the recovery of the expenses thereof from him shall, so far as may be consistent with the tenor of this Regulation, apply,

PART III.

Legislative Measures and Rules thereunder.

No. J. 2317—Cts. 223-08-4, dated 9th February 1909.

The following Rules framed by the Chief Court under para 3 of Section 269 of the Code of Civil Procedure and approved by Government are published for general information :—

1. When attached movables are kept in Court for more than six months, they may be sold after notice to the parties and claimants, if any, and the proceeds after defraying the expenses of notice and sale shall be deposited in the Treasury and disposed of in the same manner in which the attached property would have been disposed of. The cost of sale will be met in the first instance from the permanent advance with the Nazir and then recouped out of the sale proceeds.

2. In the case of live stock which are attached, they shall be sold on the next day after two months from the date of attachment unless the judgment-debtor applies to the Court for their sale earlier and the proceeds of such sale after defraying the expenses shall be deposited in the Treasury and dealt with as the attached property would have been dealt with.

3. Any property, the value of which is, in the opinion of the Court, less than Rs. 10, may be sold after the time fixed without notice and the sale proceeds after defraying the expenses shall be treated as attached property.

4. If the person, whose property is attached, or from whose custody it is taken, gives security to the satisfaction of the Court, the property may be handed over to him. Live stock attached may, on similar terms, be handed over to the attaching creditor, after notice to the owner, if the judgment-debtor or the person from whose custody it was taken does not wish to provide for its maintenance and custody.

5. When attached property is left in the custody of a surety, the surety may apply for its sale or for his being released from his liability. The Court shall thereupon direct notice of such application to issue to the parties at the surety's cost, and if the parties interested do not take steps to get the property sold or released

within the time fixed, it may be sold and the proceeds shall be deposited in Court, after paying the surety the costs properly incurred by him in issuing the notice and in taking care of the property.

Such application shall, in the case of live stock, be made by the surety within sixty days from the date of attachment and in default he shall not be entitled to the cost of maintenance and custody beyond the said period.

6. In cases in which expense is incurred for the care and custody of attached property, such as live stock, such expenditure will not be allowed for a longer period than two months, provided however, that it shall in no case exceed the value of the property. The person in charge may, however, in the case of postponement of sale, apply to the Court at the end of every period of two months for an order for payment of such expenditure. In case in which the postponement of sale is occasioned by the intervention of a claim to attached property, the expenses incurred during the period of postponement shall be borne by the claimant if he fails to establish his claim and by the attaching creditor if such claim is allowed.

7. When the expenditure for the maintenance and custody of attached property is likely to be unreasonably large, the provisions of Section 269 of the Code of Civil Procedure for immediate sale should be enforced.

8. When cattle or other live stock are in the custody of a surety or of the attaching creditor, the Court may, in its discretion, disallow either wholly or in part, the remuneration due to him for keeping and feeding them, if he uses them in any profitable manner.

These rules shall be read as supplementing those issued with Government Notification No. 4671-399, dated the 12th October 1899, as amended by Government Notification No. J. 225—Cts. 202-05-6, dated the 25th July 1906.

STATEMENT OF OBJECTS AND REASONS.

The Small Cause Courts Act, XI of 1865, was never formally extended to Mysore, but owed its force to a Notification of the Government of India in the Foreign Department, No. 31—I. J., dated the 28th January 1880, which added certain words to Rule 8 of the Rules promulgated with the earlier Notification of 27th August 1879, No. 235—I. J.

The amended Rule 8 is transcribed below, the additions being shown in italics :—

"The Chief Commissioner may invest, within such local limits as he from time to time fixes, any Subordinate Judge with the jurisdiction of a Judge of a Court of Small Causes *under Act No. XI of 1865 (an Act to consolidate and amend the law relating to Courts of Small Causes, etc., etc.)*, for the trial of suits cognizable by such Courts up to such amount as the Chief Commissioner may think fit, not exceeding Rs. 500, and any Munsiff with similar jurisdiction up to such amount as the Chief Commissioner may think fit, not exceeding Rs. 50."

"*All the provisions of the said Act No. XI of 1865 shall, so far as they are consistent herewith, apply to the Court of any Subordinate Judge or Munsiff when exercising the jurisdiction with which he is so invested.*"

"The Chief Commissioner may, whenever he thinks fit, withdraw such jurisdiction from the Subordinate Judge or Munsiff so invested."

The whole of the substantive Notification of the 27th August 1879 was, however, repealed by Section 2 of the Mysore Civil Courts Regulation, I of 1883, since which time all investitures of judicial officers with Small Cause powers have been effected under the said Regulation, I of 1883. But the amending Notification of 28th January 1880 was not at the time expressed to be repealed; and this has led, in certain quarters, to the entertainment of doubts as to the Small Cause law in force in Mysore.

2. The object of the present measure is not only to set such doubts at rest, but also to bring the law of Mysore on the subject into line with the British Indian Law, *viz.*, the Provincial Small Cause Courts Act, IX of 1887, so far as the provisions of the latter are adapted to local requirements. It may be noted, in passing, that the Draft Regulation is not intended to supersede Section 16 of the Civil Courts Regulation. The former enables Government (among other things) to establish Courts of Small Causes pure and simple, while the latter provides for the investiture of certain classes of judicial officers with the jurisdiction of Courts of Small Causes, such jurisdiction being exercised as laid down in Section 22 of the Draft Regulation.

3. Among the provisions which it has been considered unnecessary to incorporate in the Draft Regulation for the present are those relating to the appointment, functions, etc., of single Judges for several Courts of Small Causes, Additional Judges and Registrars.

4. Section 8, regarding ministerial establishment, is new, and corresponds to Section 13 of Act IX of 1887, but is simpler than the latter.

5. Act IX of 1887 contains a schedule of 44 clauses, which specifies the suits excluded from the jurisdiction of Courts of Small Causes; all other suits of a civil nature which do not exceed a prescribed limit of value are made cognizable by those Courts.

The purpose of this classification is, doubtless, to restrict the jurisdiction of Small Cause Courts to petty suits not involving difficult or intricate questions of law or fact. As a matter of fact, however, several of the suits cognizable by such Courts under the Indian Act are (as shown by Mr. Justice A. Ramachandra Aiyar in his memoranda of April 1890 and May 1893), as difficult as some of those which have been excluded. Thus, actions for deceit, or negligence, or for money had and received, or for compensation for not completing a contract of sale of land, are not excluded from the schedule and yet these classes of actions *prima facie*—involve as difficult questions of law and fact as the classes specified in the schedule. Again, a concrete instance may be imagined in which the same set of acts may cause injury to the *person* and to personal *property* of the plaintiff; but though the questions of fact and law involved, so far as they relate to the liability of the defendant to pay damages, may be the same in both cases, a Small Cause Court is deemed competent to adjudicate on a suit for compensation in the latter case, but not in the former. Similarly, an action for conversion, say, of a horse or jewel, though sometimes more difficult to decide than an action for libel or malicious prosecution, is yet cognizable by a Small Cause Court, while the latter is excluded from its jurisdiction.

These and other instances suggest that the classification of suits contained in the Indian Act is not quite satisfactory, and that the sphere of suits to be excluded from the cognizance of Small Cause Courts should be enlarged.

A reference to past reports on the administration of Civil Justice in Mysore shows that most of the suits filed on the Small Cause side are suits for money lent, or for goods supplied, or for wages, or for rent. All the suits which it is desirable a Small Cause Court should be empowered to try may easily be grouped under a few general heads. It has therefore appeared to be the best course to specify these groups in a new schedule in place of the one appended to the Indian Act and to enact that suits not so specified shall not be entertained by Small Cause Courts. This has accordingly been done in Section 10 of the Draft Regulation, which also empowers Government to add to or vary the schedule by a notification published in the Gazette.

It may be added that the Chief Court, whose opinion was invited on the measure, considers that the new provision is a decided improvement on the corresponding provision of the Indian Act, and that the classification of suits cognizable by Courts of Small Causes as given in the Draft Regulation is at once simple and clear.

When a note is endorsed to, or receipted by, any person in his capacity of trustee or in any other representative capacity, such person will be treated in all respects as the true owner of the note.

A note, blank endorsed by the holder not receivable.

4. A note, blank endorsed by the holder is not receivable at any Government Treasury or at the Comptroller's Office. The holder of any such security will therefore be required to specially endorse the same before submitting it for payment of interest.

In the case of any note which is the property of a minor or belongs to an estate in which administration is limited to interest, the Comptroller may upon such note being deposited with him issue to the holder of such note a counterpart thereof having the words "Counterpart not negotiable" stamped across the face thereof and further payments of interest may be recorded upon such counterpart. Whenever such note shall cease to be the property of a minor or shall cease to belong to an estate in which administration is limited to interest, the further payment of interest, in respect of the note may be refused until the first or any subsequent counterpart (as the case may be) issued in respect of it has been receipted and renewed in the manner provided in the last preceding rule. Upon such counterpart being receipted and renewed as aforesaid, the same together with the original note, and any preceding counterpart issued in respect thereof will be cancelled.

7. No payment of interest and no record or acknowledgment of the payment of interest and no issue of a counterpart note under the preceding rules is to be deemed or taken to be acknowledgment of the title of the holder of any note.

Fee in respect of applications for renewal of notes or issue of duplicate.

8. The following fee is payable in respect of applications under Sections 10 and 11 of the Mysore Government Securities Regulation, IX of 1894:—

Such notification shall be in the form following, or as near thereto as the circumstances will admit :

Lost or destroyed (as the case may be).

18. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller, if satisfied of the loss or destruction of a portion of a note and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, shall, upon the execution of such bond of indemnity (with or without sureties) as is hereinafter mentioned, issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. If, however, no portion or no sufficient portion of the note so lost or destroyed shall have been produced as aforesaid, then at the expiration of the two years from the date of the insertion of such last advertisement, the Comptroller shall, if satisfied as aforesaid, pass an order directing the Treasury where interest is to be made payable upon the execution of such bond of indemnity as is hereinafter mentioned, to pay the applicant interest in respect of the note so lost or destroyed pending the issue of a duplicate note and also shall, at the expiration of six years from the date of the publication of the list in which the lost or destroyed security is first mentioned, if no reason to the contrary appear, issue to the applicant (on his executing and procuring the execution by two sureties of such indemnity bond as is hereinafter mentioned, should the same be deemed necessary by the Comptroller), a duplicate note in lieu of that so lost or destroyed as aforesaid.

19. The Comptroller may, within six years of the date of an order passed by him under the preceding rule, if he finds sufficient reason, alter or cancel such order, and may also require that the interval before the issue of a duplicate note be extended to twelve years, or such shorter period not being less than six years as he may think fit.

20. Indemnity bonds when taken on the issue of a duplicate note or notes shall be for twice the amount of such note or notes, and when taken on the issue of orders for payment of interest shall be for twice the amount of the interest involved, that is to say, twice the aggregate amount of all back interest accrued due on the note, plus twice the amount of all interest to accrue due thereon during the six years which will have to elapse before the issue of a duplicate note can be made. In simple cases such bonds may be issued by the Comptroller in a printed form prescribed by Government. No fee will be chargeable if a bond does not exceed in amount Rs. 500; but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000 or part of Rs. 1,000 will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. If however, the Comptroller considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Advocate, a fee of Rs. 32 shall be payable to that officer.

21. The list of securities lost or destroyed referred to in Section 11 (3) of Regulation, IX of 1894, in respect of which an order is made for payment of interest pending the issue of a duplicate security, or for the issue of such duplicate security, shall be advertised half yearly in the *Mysore Gazette*, in the months of January and July or as soon afterwards as may be convenient. All securities in respect of which an order has been passed as aforesaid shall be included in the first list published next after the passing of such order and shall continue to be advertised every half year until the expiration of six years from the date of first publication or from the date of the last payment of interest on the original securities, whichever is the later date. Such list shall contain the following particulars, *viz.*, the name of the loan and number of the lost note, its value, in whose name it was issued, from what date it bears interest, the name of the claimant for a duplicate, the number and date of the order passed by the Comptroller for payment of interest or issue of a duplicate, and the date of publication of the list in which such security was first mentioned.

No. R. 7709—*Ft.* 13-05-18, *dated 25th March* 1909.

Under Section 76 of the Mysore Forest Regulation (XI of 1900), the Government of His Highness the Maharaja are pleased to issue the following rules regarding the removal of sandal trees from occupied lands and the payment of bonuses to the occupants thereof:—

(1) No land owner shall have the right to insist that a sandal tree standing on his land be removed on the ground that it has grown to maturity or on any other ground than that of obstruction to cultivation or to object to the removal of any tree by the Forest Department in the course of its ordinary operations. The selection of the trees to be removed shall rest entirely with the officers of the Forest Department and those acting under their orders.

(2) Mature sandal trees intended for removal in occupied lands shall be marked by the Range Officer with a hammer bearing the monogram S. F. (S standing for sandal and F for fell) just above the root stock after removing the outer bark and white wood. It will also have a serial number stamped on it corresponding with that contained in a register to be maintained by the Range Officer showing all the trees marked by him. This register will be maintained, according to Form C, appended hereto, and a monthly extract therefrom will be sent to the District Forest Officer.

(3) The Range Officer will then prepare a receipt in Form A, appended hereto, and give a credit note on the nearest Taluk Treasury showing the amount of bonus payable to the occupant. The receipt will contain the signature of the occupant both in the counterfoil and the duplicate and will be attested by the patel and shanbhog. The counterfoil will be sent to the Amildar simultaneously with the issue of the credit note and will be passed on by the Amildar to the District Forest Officer after the credit note is cashed with the fact of payment endorsed thereon. The District Forest Officer after the necessary check will return it to the Range Officer to be filed as a voucher.

(4) After the credit note is issued, the tree will be uprooted and roughly dressed, leaving a ring at the point where the measurement was taken and sent to the koti intact accompanied by the usual Passport (*vide* Form No. 55 of the Forest Code). In the "Remark" column of the form, the Range Officer will note the girth measurement of the tree, the survey number of the field and the name of the owner.

(5) The Koti Ranger or Forester, on receipt of the tree, will check the measurement and submit to the District Forest Officer a list of trees received during the month, on the first of the ensuing month in Form B appended hereto.

(6) The District Forest Officer will compare and check the koti list with the entries in the Ranger's register and vouchers. If they agree, he will file them; but if any discrepancies are noticed, he will take immediate steps to trace and reconcile the same.

(7) The District Forest Officer during the course of his tours, will check at least 15 per cent of the uprooted trees by actually measuring the trees at the koti and inspecting the localities from where they were uprooted and submit a certificate to that effect to the Conservator.

(8) In all cases where an occupant of land wishes to have any sandal tree growing on his holding removed, on the ground that it interferes with the legitimate use of his land, he shall make an application in that behalf to the Amildar. The Amildar on receipt of such application shall furnish the applicant with a written acknowledgment of the application and after causing the necessary enquiry to be made, will forward the application with his own opinion to the District Forest Officer. The District Forest Officer after such further enquiry as he may deem necessary and on being satisfied that the ground is valid will order the removal of the tree on payment of any compensation which may be prescribed in that behalf. The District Forest Officer's opinion as to the necessity for the removal of the tree will be final.

(9) If the applicant does not receive any answer within three months from the date of the acknowledgment received by him, permission shall be deemed to have been granted to him for the removal of the tree and he shall become entitled to all the benefits which he could have claimed according to the orders of Government if the tree had been removed by the Forest Department.

2. Before any land containing a large number of sandal trees is granted for cultivation, the Forest Department shall be consulted and if there is a thick growth of sandal trees on the whole survey number, such number shall be reserved for Government. If there is a growth only in a portion of the survey number and the remaining portion does not contain many trees, such remaining portion may be granted for cultivation after being formed into a separate survey number, provided the extent does not fall below the minimum for the tract. In special cases where it is possible to mark off the portion containing sandal trees and reserve it, such portion even if below the prescribed minimum, may, with the sanction of the Revenue Commissioner, be sub-divided and reserved to Government, the remaining portion of the survey number being alone granted for cultivation with a proportionate reduction of assessment.

18. At the expiration of six months from the date of the insertion of the last advertisement, the Comptroller, if satisfied of the loss or destruction of a portion of a note and of the justice of the claim of the applicant, and if a sufficient portion for the identification of the note so lost or destroyed shall have been produced, shall, upon the execution of such bond of indemnity (with or without sureties) as is hereinafter mentioned, issue to the applicant a duplicate note in lieu of that so lost or destroyed as aforesaid. No fee will be chargeable if a bond does not exceed in amount Rs. 500; but on bonds for higher amounts a fee of Rs. 5 for every Rs. 1,000 or part of Rs. 1,000 will be charged, provided that no fee for any one bond so issued shall exceed in amount Rs. 30. No. R. 7709—*Ft.* 13-05-18, *dated 25th March* 1909.

Under Section 76 of the Mysore Forest Regulation (XI of 1900), the Government of His Highness the Maharaja are pleased to issue the following rules regarding the removal of sandal trees from occupied lands and the payment of bonuses to the occupants thereof:—

(1) No land owner shall have the right to insist that a sandal tree standing on his land be removed on the ground that it has grown to maturity or on any other ground than that of obstruction to cultivation or to object to the removal of any tree by the Forest Department in the course of its ordinary operations. The selection of the trees to be removed shall rest entirely with the officers of the Forest Department and those acting under their orders.

(2) Every mature sandal tree intended for removal in occupied lands shall be marked by the Range Officer with a hammer bearing the monogram S. F. (S standing for sandal and F for fell) just above the root stock after removing the outer bark and white wood. It will also have a serial number stamped on it corresponding with that contained in a register to be maintained by the Range Officer showing all the trees marked by him. This register will be maintained, according to Form C, appended hereto, and a monthly extract therefrom will be sent to the District Forest Officer.

(3) The Range Officer will then prepare a receipt in Form A, appended hereto, and give a credit note on the nearest Taluk Treasury showing the amount of bonus payable to the occupant. The receipt will contain the signature of the occupant both in the counterfoil and the duplicate and will be attested by the patel and shanbhog. The counterfoil will be sent to the Amildar simultaneously with the issue of the credit note and will be passed on by the Amildar to the District Forest Officer after the credit note is cashed with the fact of payment endorsed thereon. The District Forest Officer after the necessary check will return it to the Range Officer to be filed as a voucher.

(4) After the credit note is issued, the tree will be uprooted and roughly dressed, leaving a ring at the point where the measurement was taken and sent to the koti intact accompanied by the usual Passport (*vide* Form No. 55 of the Forest Code). In the "Remark" column of the form, the Range Officer will note the girth measurement of the tree, the survey number of the field and the name of the owner.

(5) The Koti Ranger or Forester, on receipt of the tree, will check the measurement and submit to the District Forest Officer a list of trees received during the month, on the first of the ensuing month in Form B appended hereto.

(6) The District Forest Officer will compare and check the koti list with the entries in the Ranger's register and vouchers. If they agree, he will file them; but if any discrepancies are noticed, he will take immediate steps to trace and reconcile the same.

(7) The District Forest Officer during the course of his tours, will check at least 15 per cent of the uprooted trees by actually measuring the trees at the koti and inspecting the localities from where they were uprooted and submit a certificate to that effect to the Conservator.

(8) In all cases where an occupant of land wishes to have any sandal tree growing on his holding removed, on the ground that it interferes with the legitimate use of his land, he shall make an application in that behalf to the Amildar. The Amildar on receipt of such application shall furnish the applicant with a written acknowledgment of the application and after causing the necessary enquiry to be made, will forward the application with his own opinion to the District Forest Officer. The District Forest Officer after such further enquiry as he may deem necessary and on being satisfied that the ground is valid will order the removal of the tree on payment of any compensation which may be prescribed in that behalf. The District Forest Officer's opinion as to the necessity for the removal of the tree will be final.

(9) If the applicant does not receive any answer within three months from the date of the acknowledgment received by him, permission shall be deemed to have been granted to him for the removal of the tree and he shall become entitled to all the benefits which he could have claimed according to the orders of Government if the tree had been removed by the Forest Department.

2. Before any land containing a large number of sandal trees is granted for cultivation, the Forest Department shall be consulted and if there is a thick growth of sandal trees on the whole survey number, such number shall be reserved for Government. If there is a growth only in a portion of the survey number and the remaining portion does not contain many trees, such remaining portion may be granted for cultivation after being formed into a separate survey number, provided the extent does not fall below the minimum for the tract. In special cases where it is possible to mark off the portion containing sandal trees and reserve it, such portion even if below the prescribed minimum, may, with the sanction of the Revenue Commissioner, be sub-divided and reserved to Government, the remaining portion of the survey number being alone granted for cultivation with a proportionate reduction of assessment.

1. Interest cages showing the several half years for which interest will accrue, shall be imprinted on the reverse of each note issued and payment shall be recorded by the stamp of the Disbursing Office, or by a manuscript entry over the space apportioned to the half year concerned. The recording entry shall show the name of the Treasury, the number borne by the payment voucher, and the date of payment ; this entry shall be authenticated by the initials of the Treasury Officer; and the holder's receipt shall be taken on the face of the payment voucher.

Endorsement by an Indian female.

2. An endorsement or receipt by an Indian female must be attested by the signatures of at least two respectable witnesses, who must attend before the officer in charge of the Treasury where interest is payable, and certify to the genuineness of the endorsement or receipt.

Endorsement by a private trust not recognized.

3. No notice will be taken of any trust appearing in an endorsement of transfer or receipt for interest. When a note is endorsed to, or receipted by, any person in his capacity of trustee or in any other representative capacity, such person will be treated in all respects as the true owner of the note.

4. A note, blank endorsed by the holder is not receivable at any Government Treasury or at the Comptroller's Office. The holder of any such security will therefore be required to specially endorse the same before submitting it for payment of interest.

(*b*) Where an endorsement is made in his official capacity by the person holding for the time being one of the offices to which the Government of Mysore has, by Notification in official Gazette, declared Section 6, sub-section (1) of the Mysore Government Securities Regulation, IX of 1894, to apply;

(*c*) Where the transfer is made to or by a person in whose favour a certificate under the Succession Certificate Regulation (VII of 1901) or probate or letters of administration under the Indian Succession Act (X of 1865) has (or have) been granted by a Court of competent jurisdiction;

(*d*) Where the transfer is made to, or by the executor or an administrator of an estate, who is described as such therein such executor or administrator being shown to be the holder according to the tenor of the note and previous endorsements.

(5) If, in the opinion of the officer before whom the note is presented for payment of interest, the title of the person so presenting the note is irregular or not fully approved.

(6) If the note in question being the counterpart note issued under the provisions of Rule 6, has ceased to be the property of a minor or to belong to an estate in which the administration is limited to interest.

In all or any of the preceding cases payment of any further interest on such note may be refused until the note is receipted for renewal and actually renewed.

Issue and withdrawal of counterpart notes.

In the case of any note which is the property of a minor or belongs to an estate in which administration is limited to interest, the Comptroller may upon such note being deposited with him issue to the holder of such note a counterpart thereof having the words "Counterpart not negotiable" stamped across the face thereof and further payments of interest may be recorded upon such counterpart. (S standing for sandal and F for fell) just above the root stock after removing the outer bark and white wood. It will also have a serial number stamped on it corresponding with that contained in a register to be maintained by the Range Officer showing all the trees marked by him. This register will be maintained, according to Form C, appended hereto, and a monthly extract therefrom will be sent to the District Forest Officer.

(3) The Range Officer will then prepare a receipt in Form A, appended hereto, and give a credit note on the nearest Taluk Treasury showing the amount of bonus payable to the occupant. The receipt will contain the signature of the occupant both in the counterfoil and the duplicate and will be attested by the patel and shanbhog. The counterfoil will be sent to the Amildar simultaneously with the issue of the credit note and will be passed on by the Amildar to the District Forest Officer after the credit note is cashed with the fact of payment endorsed thereon. The District Forest Officer after the necessary check will return it to the Range Officer to be filed as a voucher.

(4) After the credit note is issued, the tree will be uprooted and roughly dressed, leaving a ring at the point where the measurement was taken and sent to the koti intact accompanied by the usual Passport (*vide* Form No. 55 of the Forest Code). In the "Remark" column of the form, the Range Officer will note the girth measurement of the tree, the survey number of the field and the name of the owner.

(5) The Koti Ranger or Forester, on receipt of the tree, will check the measurement and submit to the District Forest Officer a list of trees received during the month, on the first of the ensuing month in Form B appended hereto.

(6) The District Forest Officer will compare and check the koti list with the entries in the Ranger's register and vouchers. If they agree, he will file them; but if any discrepancies are noticed, he will take immediate steps to trace and reconcile the same.

(7) The District Forest Officer during the course of his tours, will check at least 15 per cent of the uprooted trees by actually measuring the trees at the koti and inspecting the localities from where they were uprooted and submit a certificate to that effect to the Conservator.

(8) In all cases where an occupant of land wishes to have any sandal tree growing on his holding removed, on the ground that it interferes with the legitimate use of his land, he shall make an application in that behalf to the Amildar. The Amildar on receipt of such application shall furnish the applicant with a written acknowledgment of the application and after causing the necessary enquiry to be made, will forward the application with his own opinion to the District Forest Officer. The District Forest Officer after such further enquiry as he may deem necessary and on being satisfied that the ground is valid will order the removal of the tree on payment of any compensation which may be prescribed in that behalf. The District Forest Officer's opinion as to the necessity for the removal of the tree will be final.

(9) If the applicant does not receive any answer within three months from the date of the acknowledgment received by him, permission shall be deemed to have been granted to him for the removal of the tree and he shall become entitled to all the benefits which he could have claimed according to the orders of Government if the tree had been removed by the Forest Department.

After Rule 41 of the Land Revenue Rules, the following rule will be added:—

2. Before any land containing a large number of sandal trees is granted for cultivation, the Forest Department shall be consulted and if there is a thick growth of sandal trees on the whole survey number, such number shall be reserved for Government. If there is a growth only in a portion of the survey number and the remaining portion does not contain many trees, such remaining portion may be granted for cultivation after being formed into a separate survey number, provided the extent does not fall below the minimum for the tract. In special cases where it is possible to mark off the portion containing sandal trees and reserve it, such portion even if below the prescribed minimum, may, with the sanction of the Revenue Commissioner, be sub-divided and reserved to Government, the remaining portion of the survey number being alone granted for cultivation with a proportionate reduction of assessment.

F. 21-9, dated Bangalore, 19th May 1900, the Government of His Highness the Maharaja of Mysore are pleased to make the following additional Rules to regulate the import, transport and export of opium and intoxicating drugs made from opium other than those used for smoking in transit through Mysore Territory from one portion to another of British Territory.

Rules.

1. The transport from foreign territory through Mysore territory of intoxicating drugs prepared from opium and used for smoking is absolutely prohibited.

2. No opium or intoxicating drugs made from opium other than those used for smoking, shall be transported through Mysore territory except under, and in accordance with, a permit issued in accordance with the following rules.

3. Except in the case of permits issued to persons licensed to vend in British territory, no permit shall cover the transport of more than three tolas of opium, or intoxicating drugs made from opium other than those used for smoking.

4. The permits recognised under these regulations shall be in printed forms and in duplicate. Each permit must bear a consecutive number and must be sealed with the private seal of the officer issuing the permit in addition to his office seal.

5. The period of currency of a permit must be regulated according to the distance the drug is transported, one day being allowed for every 15 miles by road or 70 miles by rail in addition to one day for despatch and one day for delivery in the case of consignments sent by rail.

6. Every consignment transported through Mysore territories under these regulations shall be accompanied by its permit, which must show the name of the transporter, the quantity of opium or intoxicating drugs covered by it, the route of transport, the period of currency and the officer before whom it should be taken for verification.

7. Whenever a permit is issued, the duplicate thereof, which should bear the impression of the same seals as have been placed on the original permit and on the consignment should be forwarded by the officer issuing the permit to the officer appointed to verify the consignment.

8. Every package to be transported through Mysore territories under these regulations shall be sealed and the seals used shall be the same as those impressed on the permit (see Rule 4).

14. On the arrival of the consignment at its destination, it shall be verified by the officer appointed for the purpose under Rule 10 *supra*. He will examine the seals and weigh each package before opening it. Under Rule 40 of the rules for the conduct of business of the Mysore Legislative Council, the following report of the Select Committee appointed for the consideration of the Mysore Poisons Bill is published for general information :—

By Order,
S. HIRIYANNAIYA,
Secretary, Mysore Legislative Council.

Report of the Select Committee on the Mysore Poisons Bill.

We, the members of the Select Committee to whom the Bill to provide for the regulation of the possession and sale of all poisons in certain local areas, and the importation, possession and sale of white arsenic generally, was referred for consideration, beg to submit the following report thereon.

We have considered the several provisions of the Bill and the suggestions received, and recommend that the Bill be passed by the Council with the amendments noted below.

1. Clause 4, sub-clause (2).

The word "or" occurring in this sub-clause after the word "matters" and before the word "all" seems to be a misprint for the word "for" which should be substituted therefor.

2. Clause 10, sub-clause (*1*) (*b*).

In this sub-clause the words "the United Kingdom" should be substituted for the word "Mysore," as in the British Indian Act. We note that there is no law either in Mysore or in British India laying down qualifications for the profession of chemists and druggists.

3. Clause 10, sub-clause (*2*).

We are of opinion that the restriction which is intended to be imposed by this sub-clause on medical and veterinary practitioners and on chemists and druggists in regard to transactions in certain kinds of poisonous drugs should be limited only to sales of such drugs. In this view the word "transactions" in the sub-clause appears to be rather too wide. We therefore recommend that the sub-clause be recast as follows :—

"2. The Government may, in the case of medical or veterinary practitioners or chemists or druggists *vending* any poisonous drug to be specified by Government in this behalf, make rules for—

(i) the maintenance by *them* of registers of sales, the particulars to be entered in such registers, and the inspection of the same;

(ii) the safe custody of such drugs and the labelling of the vessels, packages or coverings in which any such drug is sold or possessed for sale; and

(iii) the inspection and examination of any such drugs when possessed for sale by any such person."

We observe that no provision has been made in the draft Bill for penalties for breaches of rules that may be framed by Government under the above sub-clause. We therefore consider it necessary that the words "or sub-section (2) of Section 10" should be inserted after the word and figure "Section 4" in sub-clause 1 (*a*) of clause 7.

As the provisions of the Bill have undergone very little change, we consider it unnecessary to republish it with the amendments now suggested by us.

We beg to add that the Committee had, during their discussions, the benefit of the expert opinions of Col. Smyth, I.M.S., Senior Surgeon and Sanitary Commissioner to Government, and of Mr. N. Narasimmiengar, Inspector of Cattle Diseases.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 13—L. C., dated Bangalore, 13th July 1909.

Under Rule 40 of the Rules relating to the conduct of business of the Mysore Legislative Council, the accompanying report of the Select Committee on the Mysore Treasure-Trove Bill is published for general information together with the Bill as amended by the Committee.

By Order,
S. HIRIYANNAIYA,
Secy., Mysore Legislative Council.

Report of the Select Committee on the Treasure-Trove Bill.

WE, the Members of the Select Committee, appointed for the consideration of the Treasure-Trove Bill, beg to submit the following report to the Council. We have given the Bill our best consideration and beg to recommend that it be passed with the following additions and alterations :—

1. CLAUSE 3.—INTERPRETATION.—We presume that no interpretation or definition of the word "Finder" has been attempted either in this Bill or in the British Indian Act, VI of 1878, on which this Bill is based, for the reason that the word is too elementary to require a definition and that the deciding authority is not likely to meet with any difficulty in determining who the "Finder" of a treasure may be in each particular case. But we apprehend that the word may give rise to difficulties under certain circumstances, as for instance where treasure is discovered by a cooly in the course of work done for or at the instance of his master or employer.

We consider that in such cases the latter and not the cooly who actually excavated the treasure should be deemed to be the "Finder." To provide for such cases, we have added the following interpretation of the word "Finder":—

"When any treasure is discovered in the course of any work done at the express or implied direction of any person, such person shall be deemed to be the 'Finder'."

We think also that the right of the Government to treasure found in a place belonging to itself should be made explicit. We accordingly recommend the following additional interpretation of the word "Owner":—

"Where any land is the property of Government under Section 36 of the Land Revenue Code, 1888, the Government shall, for the purposes of this Regulation, be deemed to be the owner of the land or thing affixed thereto."

2. CLAUSE 5, SUB-CLAUSE (*b*).—Provision is made here for special notice being given to the person in possession of the place where treasure is found. We consider that the owner of the place is entitled to a like notice. We have therefore added the words "or belonged to" after the words "possession of" in line 4 of this sub-clause.

3. Under the Bill, antecedent rights of property in the treasure are expressly protected only if the owner can prove that it was hidden within a hundred years. But cases are conceivable where owners of the treasure may establish their right thereto without at the same time being able to prove positively to the satisfaction of a Civil Court that the treasure was so hidden. We consider it very hard that such persons should be refused any kind of consideration. In our opinion, provision should be made for the protection of the rights of other persons than the limited class of persons specially dealt with by clause 8. We accordingly recommend that such persons may be placed on the same footing as the owners of the place. With this view, and following the wording of clause 6, we have inserted the words "or otherwise" (1) after the words "as owner of the place in which it has been found" occurring in clause 11; (2) also after the words "as owner of the place in which the treasure was found" occurring in the proviso to the clause 12 (*b*); and (3) after the words "as owner of the place where such treasure was found" occurring in clause 13. This would meet all legitimate and reasonable claims which ought not to be ignored.

4. PARA 1 OF CLAUSE 12.—We observe that under the Bill the finder is not entitled to more than a lakh of rupees when he has not got to share it with others (*vide* clause 16). There is no reason why this anomaly should prevail. We have therefore inserted the words "not exceeding a lakh of rupees in amount or value" after the words "one half of the treasure" occurring herein and have substituted the word "remainder" for the words "the other half."

5. CLAUSE 19.—In clause 6 it is provided that persons having a right to hidden treasure shall forfeit their right thereto, if they fail to appear within the period fixed in the notification issued under clause 5. This, we are of opinion, is likely to work hardship in the case of persons who may be absent from their ordinary place of residence for long periods or who may be sojourning in distant places or who from other valid cause could not appear as required by the notification. An absolute extinction of right could not be intended in cases where the non-appearance was unavoidable. An intention to re-open an enquiry in such cases is presumable from clause 19, but to place the matter beyond a possibility of doubt, we have made explicit provision for a rehearing in such cases in the manner provided for in the Civil Procedure Code, Chapter VII, so far as the same may be held applicable, and have added the following to the existing Clause 19, namely:—

"and the provisions of Chapter VII of the Code of Civil Procedure shall, so far as may be, apply to proceedings under this Regulation."

6. In conclusion, we beg to note that no provision has been made in the Bill for reasonable compensation being awarded to the finder of a treasure, when an antecedent property therein has been established as contemplated in clause 8. We are of opinion that there should be some inducement to the finder of the treasure not to conceal the find. The existing rules provide that reasonable compensation

including the expenses incurred by the finder be given to him in such circumstances. We leave it to the council to decide whether such a provision should not find a place in this Bill also.

Dated 15th June 1909.

A. RANGASWAMI IYENGAR.
C. SRINIVASIENGAR.
S. NARAYANA RAO.

"I approve in the main of the draft report of the Select Committee on the Treasure-Trove Bill. But I regret that I have to express my dissent with the opinion of my Hon'ble colleagues to retain clause 16. This is a new provision and does not find a place in 'The Indian Treasure-Trove Act, 1878' from which the main provisions are taken in drafting the present Bill.

"The Hon'ble Mr. Bayley who moved the Bill of 1878 in the Imperial Legislative Council has, in my opinion, very wisely waived on certain conditions and on certain limitations, the right of the State to retain any portion of the Treasure-Trove, in favour of the finder, the owner of the soil where it was found, and of the person who could establish a right to such treasure.

"The Law relating to Treasure-Trove, as now administered in British India, is practically the Law of the Middle ages and adopted from the old Roman Law of the Emperor Hadrian the French and Louisianan Codes and to a certain extent the law in force in Denmark.

"In the middle ages, the right of the State to claim any portion of the Treasure-Trove is not recognized. I submit that such a right cannot, on any recognized principle, be defended. Besides, the Hon'ble member in charge of the Bill has not urged any solid reasons in support of such a claim.

"I, therefore, recommend that this new provision as contained in clause 16, be omitted from the Bill.

Dated 12th July 1909.

"B. NAGAPPA."

The Treasure-Trove Bill.

PROCEDURE ON FINDING TREASURE.

Section 4 of Act VI of 1878.

Notice by finder of treasure.

4. Whenever any treasure exceeding in amount or value ten rupees is found, the finder shall, as soon as practicable, give to the Deputy Commissioner notice in writing—

(*a*) of the nature and amount or approximate value of such treasure;

(*b*) of the place in which it was found; and

(*c*) of the date of the finding;

and either deposit the treasure in the nearest Government Treasury, or give the Deputy Commissioner such security as the Deputy Commissioner thinks fit, to produce the treasure at such time and place as he may from time to time require.

Section 5 of Act VI of 1878.

Notification requiring claimants to appear.

5. On receiving a notice under section 4, the Deputy Commissioner shall, after making such enquiry (if any) as he thinks fit, take the following steps (namely):—

(*a*) He shall publish a notification in such manner as the Government from time to time prescribes in this behalf, to the effect that, on a certain date (*mentioning it*) certain treasure (*mentioning its nature, amount and approximate value*) was found in a certain place (*mentioning it*); and requiring all persons claiming the treasure, or any part thereof to appear personally or by Agent before the Deputy Commissioner on a day and at a place therein mentioned, such day not being earlier than four months, or later than six months after the date of the publication of such notification;

(*b*) When the place in which the treasure appears to the Deputy Commissioner to have been found was, at the date of the finding in the possession of, *or belonged to*, some person other than the finder, the Deputy Commissioner shall also serve on such person a special notice in writing to the same effect.

Section 6 of Act VI of 1878.

Forfeiture of right on failure to appear.

6. Any person having any right to such treasure or any part thereof, as owner of the place in which it was found or otherwise, and not appearing as required by the notification issued under section 5, shall forfeit such right.

Section 7 of Act VI of 1878.

Matters to be enquired into and determined by the Deputy Commissioner.

7. On the day notified under section 5, the Deputy Commissioner shall cause the treasure to be produced before him and shall enquire as to and determine—

(*a*) the person by whom, the place in which, and the circumstance under which, such treasure was found; and

(*b*) as far as is possible, the person by whom, and the circumstances under which such treasure was hidden.

Section 8 of Act VI of 1878.

Time to be allowed for suit by person claiming the treasure.

8. If upon an enquiry made under section 7, the Deputy Commissioner sees reason to believe that the treasure was hidden within one hundred years before the date of the finding by a person appearing as required by the said notification and claiming such treasure, or by some other person under whom such person claims, the Deputy Commissioner shall make an order adjourning the hearing of the case for such period as he deems sufficient, to allow of a suit being instituted in the Civil Court by the claimant to establish his right.

Section 9 of Act VI of 1878.

When treasure may be declared ownerless.

9. If, upon such enquiry, the Deputy Commissioner sees no reason to believe that the treasure was so hidden; or

if, where a period is fixed under section 8, no suit is instituted as aforesaid within such period to the knowledge of the Deputy Commissioner; or

if such suit is instituted within such period, and the plaintiff's claim is finally rejected;

the Deputy Commissioner may declare the treasure to be ownerless.

Appeal against such declaration.

Any person aggrieved by a declaration made under this section may appeal against the same within two months from the date thereof to the Government;

subject to such appeal, every such declaration shall be final and conclusive.

Section 10 of Act VI of 1878.

Proceedings subsequent to declaration.

10. When a declaration has been made in respect of any treasure under section 9, such treasure shall be disposed of in accordance with the provisions hereinafter contained.

Section 11 of Act VI of 1878. (slightly modified.)

When no other person claims as owner of place, treasure to be given to finder.

11. When a declaration has been made as aforesaid in respect of any treasure, and no person other than the finder of such treasure has appeared, as required by the notification published under section 5 and claimed a share as owner of the place in which it has been found *or otherwise* the Deputy Commissioner shall, subject to the provisions of section 16, deliver such treasure to the finder thereof.

Section 12 of Act VI of 1878.

When only one such person claims, and his claim is not disputed, treasure to be divided.

12. When a declaration has been made as aforesaid in respect of any treasure, and only one person other than the finder of such treasure has so appeared and claimed and the claim of such person is not disputed by the finder, the Deputy Commissioner shall proceed to divide the treasure between the finder and the person so claiming according to the following rule (namely) :—

If the finder and the person so claiming have not entered into any agreement then in force as to the disposal of the treasure, one half of the treasure *not exceeding a lakh of rupees in amount or value* shall be allotted to such finder and the [other half] *remainder* to such person. If such finder and such person have entered into any such agreement, the treasure shall be disposed of in accordance therewith :

Provided that the Deputy Commissioner may, in any case, if he thinks fit, instead of dividing any treasure as directed by this section,

(*a*) allot to either party the whole or more than his share of such treasure on such party paying to the Deputy Commissioner for the other party such sum of money as the Deputy Commissioner may fix as the equivalent of the share of such other party or of the excess so allotted, as the case may be ; or

(*b*) with the sanction of Government, and subject to its instructions, if any, sell such treasure or any portion thereof by public auction and divide the sale-proceeds between the parties according to the rule hereinbefore prescribed :

Provided also that when the Deputy Commissioner has by his declaration under section 9, rejected any claim made under this Regulation by any person other than the said finder or person claiming as owner of the place in which the treasure was found *or otherwise* such division shall not be made until after the expiration of two months without an appeal having been presented under section 9 by the person whose claim has been so rejected or, when an appeal has been so presented, after such appeal has been dismissed.

And shares to be delivered to parties.

When the Deputy Commissioner has made a division under this section, he shall deliver to the parties the portions of such treasure or the money in lieu thereof; to which they are respectively entitled under such division.

Section 13 of Act VI of 1878.

In case of dispute as to ownership of place, proceedings to be stayed.

13. When a declaration has been made as aforesaid in respect of any treasure, and two or more persons have appeared as aforesaid and each of them claimed as owner of the place where such treasure

was found *or otherwise*, or the right of any person who has so appeared and claimed is disputed by the finder of such treasure, the Deputy Commissioner shall retain such treasure, and shall make an order staying his proceedings with a view to the matter being enquired into and determined by a Civil Court.

Section 14 of Act VI of 1878.

Settlement of such dispute.

14. Any person who has so appeared and claimed may, within one month from the date of such order, institute a suit in the Civil Court to obtain a decree declaring his right; and in every such suit, the finder of the treasure and all persons disputing such claim before the Deputy Commissioner shall be made defendants.

And division thereupon.

15. (1) If any such suit is instituted and the plaintiff's claim is finally established therein, the Deputy Commissioner shall, subject to the provisions of section 12, divide the treasure between him and the finder.

(2) If no such suit is instituted as aforesaid, or if the claims of the plaintiffs in all such suits are finally rejected, the Deputy Commissioner shall deliver the treasure, subject to the provisions of section 16, to the finder.

(2) It extends to the whole of Mysore; and

(3) It shall come into force on the first day of 19 .

Repeal.

2. (1) On and from that day the enactments mentioned in the schedule shall be repealed to the extent specified in the third column thereof.

(2) But all proceedings had, certificates granted, allowances assigned, obligations imposed, and applications, appointments, orders and rules made under any of those enactments shall, so far as may be, be deemed to have been respectively had, granted, assigned, imposed and made under this Regulation; and

(3) Any enactment or document referring to any of those enactments shall, so far as may be, be construed to refer to this Regulation or to the corresponding portion thereof.

Definitions.

3. In this Regulation, unless there is something repugnant in the subject or context,—

(1) "minor" means a person who has not completed the age of eighteen years or, if he is not domiciled in Mysore, has not attained majority according to the law to which he is subject:

(2) "guardian" means a person having the care of the person of a minor or of his property, or of both his person and property:

(3) "ward" means a minor for whose person or property, or both, there is a guardian:

(6) "Deputy Commissioner" means the chief officer in charge of the revenue-administration of a district, and includes any officer whom the Government, by notification in the official Gazette, may, by name or in virtue of his office, appoint to be a Deputy Commissioner in any local area, or with respect to any class of persons, for all or any of the purposes of this Regulation:

CHAPTER III.

DUTIES, RIGHTS AND LIABILITIES OF GUARDIANS.

General.

Fiduciary relation of guardian to ward.

19. (1) A guardian stands in a fiduciary relation to his ward, and, save as provided by the will or other instrument, if any, by which he was appointed, or by this Regulation, he must not make any profit out of his office.

(2) The fiduciary relation of a guardian to his ward extends to and affects purchases by the guardian of the property of the ward and by the ward of the property of the guardian, immediately or soon after the ward has ceased to be a minor, and generally all transactions between them while the influence of the guardian still lasts or is recent.

Capacity of minors to act as guardians.

20. A minor is incompetent to act as guardian of any minor except his own wife or child or, where he is the managing member of an undivided Hindu family, the wife or child of another minor member of that family.

Remuneration of guardian.

21. (1) A guardian appointed or declared by the Court shall be entitled to such allowance, if any, as the Court thinks fit for his care and pains in the execution of his duties.

(2) When an officer of the Government, as such officer, is so appointed or declared to be guardian, such fees shall be paid to the Government out of the property of the ward as the Government, by general or special order, directs.

Control of Deputy Commissioner as guardian.

22. A Deputy Commissioner appointed or declared by the Court to be guardian of the person or property, or both, of a minor shall, in all matter connected with the guardianship of his ward, be subject to the control of the Government or of such authority as the Government, by notification in the official Gazette, appoints in this behalf.

Guardian of the Person.

Duties of guardian of the person.

23. A guardian of the person of a ward is charged with the custody of the ward and must look to his support, health and education, and such other matters as the law to which the ward is subject requires.

24. (1) If a ward leaves or is removed from the custody of a guardian of his person, the Court, if it is of opinion that it will be for the welfare of the ward to return to the custody of his guardian, may make an order for his return, and for the purpose of enforcing the order may cause the ward to be arrested and to be delivered into the custody of the guardian.

Title of guardian to custody of ward.

(2) For the purpose of arresting the ward, the Court may exercise the power conferred on a Magistrate of the first class by section 100 of the Code of Criminal Procedure.

(3) The residence of a ward against the will of his guardian with a person who is not his guardian does not of itself terminate the guardianship.

25. (1) A guardian of the person appointed or declared by the Court, unless he is the Deputy Commissioner or is a guardian appointed by will or other instrument, shall not, without the leave of the Court by which he was appointed or declared, remove the ward from the limits of its jurisdiction except for such purposes as may be prescribed.

Removal of ward from jurisdiction.

(2) The leave granted by the Court under sub-section (1) may be special or general, and may be defined by the order granting it.

Guardian of Property.

26. A guardian of the property of a ward is bound to deal therewith as carefully as a man of ordinary prudence would deal with it if it were his own, and, subject to the provisions of this Chapter, he may do all acts which are reasonable and proper for the realisation, protection or benefit of the property.

Duties of guardian of property.

27. Where a guardian has been appointed by will or other instrument, his power to mortgage or charge, or transfer by sale, gift, exchange or otherwise, immoveable property belonging to his ward is subject to any restriction which may be imposed by the instrument, unless he has under this Regulation been declared guardian and the Court which made the declaration permits him by an order in writing, notwithstanding the restriction, to dispose of any immoveable property specified in the order in a manner permitted by the order.

Powers of testamentary guardian.

28. When a person other than a Deputy Commissioner, or than a guardian appointed by will or other instrument, has been appointed or declared by the Court to be guardian of the property of a ward, he shall not, without the previous permission of the Court,—

Limitation of powers of guardian of property appointed or declared by the Court.

(*a*) mortgage or charge, or transfer by sale, gift, exchange or otherwise, any part of the immoveable property of his ward, or

(*b*) lease any part of that property for a term exceeding five years or for any term extending more than one year beyond the date on which the ward will cease to be a minor.

29. A disposal of immoveable property by a guardian in contravention of either of the two last foregoing sections is voidable at the instance of any other person affected thereby.

Voidability of transfers made in contravention of section 27 or section 28.

30. (1) Permission to the guardian to do any of the acts mentioned in section 28 shall not be granted by the Court except in case of necessity or for an evident advantage to the ward.

Practice with respect to permitting transfers under section 28.

(2) The order granting the permission shall recite the necessity or advantage, as the case may be, describe the property with respect to which the act permitted is to be done, and specify such conditions, if any, as the Court may see fit to attach to the permission; and it shall be recorded, dated and signed by the Judge of the Court with his own hand, or, when from any cause he is prevented from recording the order with his own hand, shall be taken down in writing from his dictation and be dated and signed by him.

(3) The Court may in its discretion attach to the permission the following among other conditions, namely :—

(*a*) that a sale shall not be completed without the sanction of the Court;

(*b*) that a sale shall be made to the highest bidder by public auction, before the Court or some person specially appointed by the Court for that purpose, at a time and place to be specified by the Court, after such proclamation of the intended sale as the Court, subject to any rules made under this Regulation by the Chief Court, directs;

(*c*) that a lease shall not be made in consideration of a premium or shall be made for such term of years and subject to such rents and covenants as the Court directs;

(*d*) that the whole or any part of the proceeds of the act permitted shall be paid into the Court by the guardian, to be disbursed therefrom or to be invested by the Court on prescribed securities or to be otherwise disposed of as the Court directs.

(4) Before granting permission to a guardian to do an act mentioned in section 28, the Court may cause notice of the application for the permission to be given to any relative or friend of the ward who should, in its opinion, receive notice thereof, and shall hear and record the statement of any person who appears in opposition to the application.

Variation of powers of guardian of property appointed or declared by the Court.

31. Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Deputy Commissioner, the Court may, from time to time, by order, define, restrict or extend his powers with respect to the property of the ward in such manner and to such extent as it may consider to be for the advantage of the ward and consistent with the law to which the ward is subject.

Right of guardian so appointed or declared to apply to the Court for opinion in management of property of ward.

32. (1) A guardian appointed or declared by the Court may apply by petition to the Court which appointed or declared him for its opinion, advice or direction on any present question respecting the management or administration of the property of his ward.

(2) If the Court considers the question to be proper for summary disposal, it shall cause a copy of the petition to be served on, and the hearing thereof may be attended by, such of the persons interested in the application as the Court thinks fit.

(3) The guardian stating in good faith the facts in the petition and acting upon the opinion, advice or direction given by the Court shall be deemed, so far as regards his own responsibility, to have performed his duty as guardian in the subject-matter of the application.

Obligations on guardian of property appointed or declared by the Court.

33. Where a guardian of the property of a ward has been appointed or declared by the Court and such guardian is not the Deputy Commissioner, he shall,—

(*a*) if so required by the Court, give a bond as nearly as may be in the prescribed form, to the Judge of the Court, to enure for the benefit of the Judge for the time being, with or without sureties, as may be prescribed, engaging duly to account for what he may receive in respect of the property of the ward;

(*b*) if so required by the Court, deliver to the Court, within six months from the date of his appointment or declaration by the Court or within such other time as the Court directs, a statement of the immoveable property belonging to the ward, of the money and other moveable property which he has received on behalf of the ward up to the date of delivering the statement, and of the debts due on that date to or from the ward;

(*c*) if so required by the Court, exhibit his accounts in the Court at such times and in such form as the Court from time to time directs;

(*d*) if so required by the Court, pay into the Court at such time as the Court directs the balance due from him on those accounts, or so much thereof as the Court directs; and

(*e*) apply for the maintenance, education and advancement of the ward and of such persons as are dependent on him, and for the celebration of ceremonies to which the ward or any of those persons may be a party, such portion of the income of the property of the ward, as the Court from time to time directs, and, if the Court so directs, the whole or any part of that property.

Suit against guardian where administration bond was taken.

34. Where a guardian appointed or declared by the Court has given a bond duly to account for what he may receive in respect of the property of his ward, the Court may, on application made by petition and on being satisfied that the engagement of the bond has not been kept, and upon such terms as to security, or providing that any money received be paid into the Court, or otherwise as the Court thinks fit, assign the bond to some proper person, who shall thereupon be entitled to sue on the bond in his own name as if the bond had been originally given to him instead of to the Judge of the Court, and shall be entitled to recover thereon as trustee for the ward, in respect of any breach thereof.

Suit against guardian where administration bond was not taken.

35. (1) Where a guardian appointed or declared by the Court has not given a bond as aforesaid, any person, with the leave of the Court, may, as next friend, at any time during the continuance of the minority of the ward, and upon such terms as aforesaid, institute a suit against the guardian, or, in case of his death, against his representative, for an account of what the guardian has received in respect of the property of the ward, and may recover in the suit, as trustee for the ward, such amount as may be found to be payable by the guardian or his representative, as the case may be.

(2) The provisions of sub-section (1) shall, so far as they relate to a suit against a guardian, be subject to the provisions of section 440 of the Code of Civil Procedure as amended by this Regulation.

General liability of guardian as trustee.

36. Nothing in either of the two last foregoing sections shall be construed to deprive a ward or his representative of any remedy against his guardian, or the representative of the guardian, which, not being expressly provided in either of those sections, any other beneficiary or his representative would have against his trustee or the representative of the trustee.

Termination of Guardianship.

Right of surviorship among joint guardians.

37. On the death of one of two or more joint guardians, the guardianship continues to the survivor or survivors until a further appointment is made by the Court.

Removal of guardian.

38. The Court may, on the application of any person interested, or of its own motion, remove a guardian appointed or declared by the Court, or a guardian appointed by will or other instrument, for any of the following causes, namely :—

(*a*) for abuse of his trust ;

(*b*) for continued failure to perform the duties of his trust ;

(*c*) for incapacity to perform the duties of his trust ;

(*d*) for ill-treatment, or neglect to take proper care, of his ward ;

(*e*) for contumacious disregard of any provision of this Regulation or of any order of the Court ;

(*f*) for conviction of an offence implying, in the opinion of the Court, a defect of character which unfits him to be the guardian of his ward ;

(*g*) for having an interest adverse to the faithful performance of his duties ;

(*h*) for ceasing to reside within the local limits of the jurisdiction of the Court ;

(*i*) in the case of a guardian of the property, for bankruptcy or insolvency ;

(*j*) by reason of the guardianship of the guardian ceasing or being liable to cease, under the law to which the minor is subject :

Provided that a guardian appointed by will or other instrument, whether he has been declared under this Regulation or not, shall not be removed—

(*a*) for the cause mentioned in clause (*g*) unless the adverse interest accrued after the death of the person who appointed him, or it is shown that that person made and maintained the appointment in ignorance of the existence of the adverse interest, or

(*b*) for the cause mentioned in clause (*h*) unless such guardian has taken up such a residence as, in the opinion of the Court, renders it impracticable for him to discharge the functions of guardian.

Discharge of guardian.

39. (1) If a guardian appointed or declared by the Court desires to resign his office, he may apply to the Court to be discharged.

(2) If the Court finds that there is sufficient reason for the application, it shall discharge him, and, if the guardian making the application is the Deputy Commissioner and the Government approves of his applying to be discharged, the Court shall in any case discharge him.

Cessation of authority of guardian.

40. (1) The powers of a guardian of the person cease—

(*a*) by his death, removal or discharge;

(*b*) by the ward ceasing to be a minor;

(*c*) in the case of a female ward, by her marriage to a husband who is not unfit to be guardian of her person, or, if the guardian was appointed or declared by the Court, by her marriage to a husband who is not, in the opinion of the Court, so unfit; or,

(*d*) in the case of a ward whose father was unfit to be guardian of the person of the ward, by the father ceasing to be so or, if the father was deemed by the Court to be so unfit, by his ceasing to be so in the opinion of the Court.

(2) The powers of a guardian of the property cease—

(*a*) by his death, removal or discharge;

(*b*) by the ward ceasing to be a minor.

(3) When for any cause the powers of a guardian cease, the Court may require him or, if he is dead, his representative to deliver as it directs any property in his possession or control belonging to the ward or any accounts in his possession or control relating to any past or present property of the ward.

(4) When he has delivered the property or accounts as required by the Court, the Court may declare him to be discharged from his liabilities save as regards any fraud which may subsequently be discovered.

Appointment of successor to guardian dead, discharged or removed.

41. When a guardian appointed or declared by the Court is discharged, or, under the law to which the ward is subject, ceases to be entitled to act, or when any such guardian, or a guardian appointed by will or other instrument is removed or dies, the Court, of its own motion or on application under Chapter II, may, if the ward is still a minor, appoint or declare another guardian of his person or property, or both, as the case may be.

CHAPTER IV.

SUPPLEMENTAL PROVISIONS.

Orders for regulating conduct of proceedings of guardians, and enforcement of those orders.

42. (1) The Court may, on the application of any person interested or of its own motion, make an order regulating the conduct or proceedings of any guardian appointed or declared by the Court.

(2) Where there are more guardians than one of a ward, and they are unable to agree upon a question affecting his welfare, any of them may apply to the Court for its direction, and the Court may make such order respecting the matter in difference as it thinks fit.

(3) Except where it appears that the object of making an order under sub-section (1) or sub-section (2) would be defeated by the delay, the Court shall, before making the order, direct notice of the application therefor or of the intention of Court to make it, as the case may be, to be given, in a case under sub-section (1), to the guardian or, in a case under sub-section (2), to the guardian who has not made the application.

(4) In case of disobedience to an order made under sub-section (1) or sub-section (2), the order may be enforced in the same manner as an injunction granted under section 492 on section 493 of the Code of Civil Procedure, in a case under sub-section (1), as if the ward were the plaintiff and the guardian were the defendant or, in a case under sub-section (2), as if the guardian who made the application were the plaintiff and the other guardian were the defendant.

(5) Except in a case under sub-section (2), nothing in this section shall apply to a Deputy Commissioner who is, as such, a guardian.

Penalty for removal of ward from jurisdiction.

43. If, for the purpose or with the effect of preventing the Court from exercising its authority with respect to a ward, a guardian appointed or declared by the Court removes the ward from the limits of the jurisdiction of the Court in contravention of the provisions of section 25, he shall be liable, by order of the Court, to fine not exceeding one thousand rupees, or to imprisonment in the civil jail for a term which may extend to six months.

Penalty for contumacy.

44. (1) In the following cases, namely :—

(a) if a person having the custody of a minor fails to produce him or cause him to be produced in compliance with a direction under section 11, sub-section (1), or to do his utmost to compel the minor to return to the custody of his guardian in obedience to an order under section 24, sub-section (1), or

(b) if a guardian appointed or declared by the Court fails to deliver to the Court, within the time allowed by or under clause (b) of section 33, a statement required under that clause, or to exhibit accounts in compliance with a requisition under clause (c) of that section, or to pay into the Court the balance due from him on those accounts in compliance with a requisition under clause (d) of that section, or

(c) if a person who has ceased to be guardian, or the representative of such a person, fails to deliver any property or accounts in compliance with a requisition under section 40, sub-section (3).

the person, guardian or representative, as the case may be, shall be liable, by order of the Court, to fine not exceeding one hundred rupees, and in case of recusancy to further fine not exceeding ten rupees for each day after the first during which the default continues, and not exceeding five hundred rupees in the aggregate, and to detention in the civil jail until he undertakes to produce the minor or cause him to be produced, or to compel his return, or to deliver the statement or to exhibit the accounts, or to pay the balance, or to deliver the property or accounts, as the case may be.

(2) If a person who has been released from detention on giving an undertaking under sub-section (1) fails to carry out the undertaking within the time allowed by the Court, the Court may cause him to be arrested and re-committed to the civil jail.

Report by Deputy Commissioner and subordinate Courts.

45. (1) The Court may call upon the Deputy Commissioner, or upon any Court subordinate to the Court, for a report on any matter arising in any proceeding under this Regulation and treat the report as evidence.

(2) For the purpose of preparing the report the Deputy Commissioner or the Judge of the subordinate Court, as the case may be, shall make such inquiry as he deems necessary, and may for the purposes of the inquiry exercise any power of compelling the attendance of a witness to give evidence or produce a document which is conferred on a Court by the Code of Civil Procedure.

Orders appealable.

46. An appeal shall lie to the Chief Court from an order made by a District Court,—

(a) under section 6, appointing or declaring or refusing to appoint or declare a guardian; or,

(*b*) under section 8, sub-section (3), returning an application; or

(*c*) under section 24, making or refusing to make an order for the return of a ward to the custody of his guardian; or,

(*d*) under section 25, refusing leave for the removal of a ward from the limits of the jurisdiction of the Court, or imposing conditions with respect thereto; or,

(*e*) under section 27, or section 28, refusing permission to a guardian to do an act, referred to in the section; or,

(*f*) under section 31, defining, restricting or extending the powers of a guardian; or,

(*g*) under section 38, removing a guardian; or,

(*h*) under section 39, refusing to discharge a guardian; or,

(*i*) under section 42, regulating the conduct or proceedings of a guardian or settling a matter in difference between joint guardians, or enforcing the order; or

(*j*) under section 43 or section 44, imposing a penalty.

Finality of other orders.

47. Save as provided by the last foregoing section and by section 622 of the Code of Civil Procedure, an order made under this Regulation shall be final, and shall not be liable to be contested by suit or otherwise.

Costs.

48. The costs of any proceedings under this Regulation including the costs of maintaining a guardian or other person in the civil jail, shall, subject to any rules made by the Chief Court under this Regulation, be in the discretion of the Court in which the proceeding is had.

Power of Chief Court to make rules.

49. (1) In addition to any other power to make rules conferred expressly or impliedly by this Regulation, the Chief Court may from time to time make rules consistent with this Regulation,—

(*a*) as to the matters respecting which, and the time at which, reports should be called for from Deputy Commissioners and subordinate Courts;

(*b*) as to the allowances to be granted to, and the security to be required from, guardians, and the cases in which such allowances should be granted;

(*c*) as to the procedure to be followed with respect to applications of guardians for permission to do acts referred to in sections 27 and 28;

(*d*) as to the circumstances in which such requisitions as are mentioned in clauses (*a*), (*b*), (*c*) and (*d*) of section 33 should be made;

(*e*) as to the preservation of statements and accounts delivered and exhibited by guardians;

(*f*) as to the inspection of those statements and accounts by persons interested;

(*g*) as to the custody of money, and securities for money, belonging to wards;

(*h*) as to the securities on which money belonging to wards may be invested;

(*i*) as to the education of wards for whom guardians, not being Deputy Commissioners, have been appointed or declared by the Court; and,

(*j*) generally, for the guidance of the Courts in carrying out the purposes of this Regulation.

(2) Rules under clauses (*a*) and (*i*) of sub-section (1) shall not have effect until they have been approved by the Government, nor shall any rule under this section have effect until it has been published in the official Gazette.

Applicability of Regulation to guardians already appointed by Court.

50. A guardian appointed by or holding a certificate of administration from a Civil Court under any enactment repealed by this Regulation shall, save as may be prescribed, be subject to the provisions of this Regulation, and of the rules made under it, as if he had been appointed or declared by the Court under Chapter II.

Amendment of Chapter XXXI of the Code of Civil Procedure.

51. Chapter XXXI of the Code of Civil Procedure shall be amended as follows, namely :—

A.—To section 440 of the said Code the following shall be added, namely :—

"If a minor has a guardian appointed or declared by an authority competent in this behalf, a suit shall not be instituted on behalf of the minor by any person other than such guardian except with the leave of the Court granted after notice to such guardian and after hearing any objections which he may desire to make with respect to the institution of the suit, and the Court shall not grant such leave unless it is of opinion that it is for the welfare of the minor that the person proposing to institute the suit in the name of the minor should be permitted to do so.

B.—To section 443 of the said Code the following shall be added, namely :—

"Where an authority competent in this behalf has appointed or declared a guardian or guardians of the person or property, or both, of the minor, the Court shall appoint him or one of them, as the case may be, to be the guardian for the suit under this section, unless it considers, for reasons to be recorded by it, that some other person ought to be so appointed."

C.—After section 446 of the said Code the following shall be added, namely :—

"If the next friend is not a guardian appointed or declared by an authority competent in this behalf, and an application is made by a guardian so appointed or declared who desires to be himself appointed in the place of the next friend, the Court shall remove the next friend unless it considers, for reasons to be recorded by it, that the guardian ought not to be appointed the next friend of the minor."

D.—For section 461 of the said Code the following shall be substituted, namely :—

"461. (1) A next friend or guardian for the suit shall not, without the leave of the Court, receive any money or other moveable property on behalf of a minor, either—

Receipt by next friend or guardian *ad litem* of property under decree for minor.

(*a*) by way of compromise before decree or order, or

(*b*) under a decree or order in favor of the minor.

(2) Where the next friend or guardian for the suit has not been appointed or declared by competent authority to be guardian of the property of the minor, or, having been so appointed or declared, is under any disability known to the Court to receive the money or other moveable property, the Court shall, if it grants him leave to receive the property, require such security and give such directions as will, in its opinion, sufficiently protect the property from waste and ensure its proper application."

THE SCHEDULE.

ENACTMENTS REPEALED.

(See section 2.)

Description, number and year.	Title or subject.	Extent of repeal.
Notification by the Government of India, Foreign Department No. 75—J., dated the 25th April 1872.	Rules relating to the Custody and Guardianship of Minors, Idiots and other disqualified persons in the Province of Mysore.	The whole, except Rule 22 and so much of Rule 23 as relates to orders passed under Rule 22, and except so far as may be necessary to give effect to Rule 22.
Act XIV of 1882 as in force in Mysore.	Code of Civil Procedure ...	The second paragraph of section 443, and section 464.
Regulation III of 1900 ...	The Mysore Court Fees Regulation, 1900.	Section 28, and Article 9 of Schedule I.

STATEMENT OF OBJECTS AND REASONS.

The law at present in force in regard to the custody and guardianship of minors consists of the Rules sanctioned by the Government of India (Foreign Department) in Notification No. 75 J., dated the 25th April 1872 (with the exception of Rule 22, which applies to lunatics, idiots and other individuals incapacitated by natural infirmity, the provisions relating to minors). These rules proceed more or less on the lines of (and were probably based on) Acts XL of 1858 and XX of 1864 relating to minors in Bengal and Bombay respectively. These and a number of other local and special Acts were finally repealed in 1890 by Act VIII of 1890, which provided a law of Guardian and Ward applicable as far as possible to all classes of Her Majesty's subjects in British India, to whatever creeds or races they might belong.

The Rules of 1872 being found defective in several respects, it is proposed to replace them, so far as they relate to the guardianship of minors, by a Regulation based on the Indian Act VIII of 1890, which is more comprehensive than the Rules aforesaid and comprises many matters not provided for by them.

The subject of the adjudgment of persons to be lunatics, and of the appointment of guardians of their persons and managers of their estates, is one which, it is found, cannot conveniently be dealt with as part of a Regulation concerning the guardianship of minors, and is therefore reserved for separate consideration. In the meantime, so much of the Rules of 1872 as relates to lunatics has to be expressly saved, and this is done in the Schedule.

2. Most of the changes made in the provisions of Act VIII of 1890 in the process of adaptation are verbal alterations that are obviously required. The few that need explanation are referred to below.

References to Courts of Wards and Chartered High Courts have been omitted throughout.

Clause 3, Sub-clause (1).—The definition of "minor" here given differs from the corresponding definition in the Indian Act, a definition based on the Indian Majority Act which is not in force in Mysore; but adheres to the provisions of the existing law* under which every person is to be "held to be a minor who has not completed the age of 18 years." The Government do not consider that there is anything to be gained by departing from the existing provision of law, and making a distinction (as in the Indian Majority Act) between the age of majority for a minor of whose person or property a guardian has been appointed by a Court of Justice before the minor has attained the age of 18 years, and the age of majority for all other persons. Compare also the definition in section 3 of the Indian Succession Act, and in section 3 of the Mysore Registration Regulation, 1903.

*Vide Rule 2 of the Rules of 1872.

Clause 3 Sub-clause (4).—The definition of "District Court" given in this clause is taken from the Succession Certifiate Regulation, VII of 1901.

So also is *clause 4*, which provids for Courts inferior to a District Court being invested with the functions of a District Court under the present Regulation. The existing Rules, it may be remarked, allow of a Subordinate Judge being empowered to receive and dispose of applications for the appointment of guardians. (*Vide* proviso to Rule 5).

Section 52 of the corresponding Indian Act has been omitted as relating to the Indian Majority Act.

Section 53, *Clause (e)* of Act VIII of 1890 has likewise been omitted, as section 464 of the Civil Procedure Code as amended by it is inapplicable for the reasons, firstly that Chapter XXVIII of the Code (relating to suits by or against Foreign and Native Rulers) had been omitted when the Code was applied to Mysore in 1884, and secondly, that there are no local laws in force relating to suits by or against minors or persons of unsound mind. The original section 464 of the Code is also inapplicable in view of the fact that the present Regulation does contemplate the applicability of Chapter XXXI to "Wards of Court;" and hence is included in the Schedule for repeal along with the second para of section 443.

PART III.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. J. 794—Legis., dated 15th September 1909.

In exercise of the power conferred by Section 5 of the Mysore Legislative Council Regulation, I of 1907, and in supersession of the rules issued under Notification No. 102, dated the 10th June 1908, the Government of His Highness the Maharaja are pleased to make the following rules as to the conditions under which two non-official members of the Legislative Council may be selected for nomination :—

I. The nominations to two places on the Legislative Council may be made by Government from among the members of the Representative Assembly, the persons to be nominated being selected in the manner explained in the following rules.

II. For the purpose of these rules the members of the Representative Assembly will be divided into two groups, one group consisting of all the members returned to such Assembly from the Western Division of the State (comprising the Districts of Mysore, Hassan, Kadur and Shimoga), and the other group consisting of all the members returned from the Eastern Division (comprising the Districts of Bangalore, Kolar, Tumkur and Chitaldrug).

III. (1) At a meeting of the members of the Representative Assembly, to be held at such place and at such time during the annual session of the Assembly as may be fixed by Government, the members belonging to each of the two groups referred to in Rule II will be requested to vote for a member belonging to their own group, for being nominated by Government to the Legislative Council.

(2) Members of the Representative Assembly, who are willing to stand for election for any division shall intimate the fact in writing to the Secretary to the Government of Mysore, General and Revenue Departments, not later than the Vijaya Dasami day of the Dasara celebrations.

(3) The names of the candidates who have signified their intention to stand for election for each division and whose candidature may be approved by the Government, shall be notified to the members of the Representative Assembly by a list of such names being posted in a conspicuous place in the Assembly Hall on a date not later than two days before the date appointed for the election. The votes of the members shall be given only to one or other of such candidates.

(4) The voting shall be by ballot.

(5) An officer deputed by Government shall attend such meeting and count the votes of the members.

(6) After the close of the meeting the officer referred to above shall submit the voting papers to the Government with a report showing the names of the candidates voted for by each group and the number of votes secured by each such candidate.

(7) The Government may make such supplementary rules of procedure as may be necessary for the disposal of business at such meeting.

IV. The two candidates who have secured the largest number of votes of the members of each group may be nominated by Government as members of the Legislative Council.

V. When the place of a member of the Legislative Council nominated under these rules from among the members of the Representative Assembly belonging to either of the two groups referred to in Rule II, becomes vacant, such place shall only be filled up after the votes of the members of such group shall have been recorded in the manner prescribed in these rules, at the next annual session of the Representative Assembly.

No. R. 2407—*L. R.* 259-08-1, *dated* 16*th September* 1909.

With a view to define the powers of the Revenue Commissioner in regard to the setting apart of lands for special purposes under Section 39 of the Mysore Land Revenue Code, 1888, including the appropriation or assignment of lands so set apart for other purposes, the Government of His Highness the Maharaja are pleased to frame the following rule in exercise of the powers conferred by Section 233 of the said Code, and to direct that the same shall be substituted for Rule 11 (*b*) of the rules issued under Notification No. R. 6732—L. R. 212-06-16, dated 9th January 1907 :—

"11 (*b*). (i) The reservation of lands for forest purposes being regulated by the Mysore Forest Regulation (XI of 1900), the Revenue Commissioner will not be required to set apart any lands for forest reserves.

(ii) The Revenue Commissioner is empowered to sanction the appropriation of unassessed waste lands not exceeding 50 acres in extent and Rs. 100 in market value for roads, whether Provincial or Local Fund, and for schools, dharmasalas and other public purposes where no compensation has to be paid by Government for lands taken up.

The Revenue Commissioner shall submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(iii) In cases in which a larger extent of unassessed lands are any extent whatever of assessed lands is required to be set apart, the previous sanction of Government should be obtained.

(iv) Where lands which have been set apart for one purpose with the sanction of Government have to be appropriated for a different purpose, the previous sanction of Government shall be likewise obtained."

12. Cattle are generally in fair condition. But "Dod Roga" is prevalent in parts of the Manjarabad, Arkalgud and Channarayapatna Taluks. It is subsiding in the Arsikere and Hassan Taluks. Fodder is generally available. In parts of the Channarayapatna Taluk, dug-up grass and jola and avarè stalks are being used as fodder. It is reported that many cart-loads of paddy and ragi straw are being taken to Arsikere from the Hassan and Manjarabad Taluks and the Alur Sub-Taluk. Difficulty for water having been felt in the taluks of Arsikere, Channarayapatna and the Alur Sub-Taluk, steps are being taken to sink new wells and deepen old ones wherever necessary.

Probable outturn of crops.—

11. Public health generally good. But plague prevails still in certain villages of the Kadur and Tarikere Taluks.

12. Cattle are generally healthy. Water and fodder are available in the malnad; but difficulty is felt for procuring them in the maidan portions of the district. In some parts of the Kadur Taluk, date leaves are being used as fodder for cattle.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 8th January 1909.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

OFFICE MEMORANDUM.

No. R. 4500—*Agri.* 101-08-2, *dated 8th January* 1909.

The prospectus of the Cochin State Agricultural and Industrial Exhibition and Cattle Show, 1909, to be opened at Viyyur, Trichur, on the 1st February 1909 is hereby published for general information.

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

THE

COCHIN STATE AGRICULTURAL AND INDUSTRIAL EXHIBITION AND CATTLE SHOW, 1909.

PROSPECTUS.

It is proposed to hold an Exhibition of Agricultural and Industrial products and a Cattle Show in the Government Farm at Viyyur, Trichur, between the 1st February 1909 to 5th February 1909, both days inclusive.

2. *Object of the Exhibition.*—The primary object of the exhibition is to bring together agricultural and industrial products, and machinery, etc., the use of which, it is desirable that the raiyat and artisan should understand. The Cattle Show is intended to give to the raiyats an idea of the several species of cattle in and out of the State and thus to promote improved methods of breeding.

3. Lectures will be delivered by competent persons in Malayalam on subjects connected with industry and agriculture, improved implements, etc. Demonstrations will also be arranged.

4. Exhibits are generally divided into (1) samples and (2) exhibits for sale.

The several groups and classes of exhibits which will be admitted for the exhibition are given in the appendix.

5. Arrangements are made to promote competition and to induce raiyats, etc., to exhibit the best products available by awarding prizes, to the value of Rs. 1,500.

The appendix gives the amount set apart for prizes under each group of exhibits.

The number and the value of the prizes to be awarded for each class of exhibits will be decided by a committee of Judges with reference to the quality, etc., of the exhibits received

6. Exhibits, etc., which, are the *bona fide* agricultural and industrial products of the State, will be given special prizes as seen in the appendix. All exhibits will compete for the general prizes.

7. *Plan of exhibition grounds and buildings.*—The exhibition grounds and buildings will be divided into several stalls. Separate stalls will be provided for samples and exhibits for sale. Special arrangements will be made for the cattle show yards.

Outside the cattle show yards will be held a cattle fair in which sales can be effected.

8. No fee will be charged on exhibits of any kind or for the space alloted for exhibits. Nor will any fee be charged to exhibitors and visitors. This concession will, it is hoped, enable the actual cultivators and artisans to take part in the exhibition.

The Government invite exhibits from all portions of the State as well as from outside. It is hoped that the agricultural and industrial associations and other public bodies will help them with exhibits and suggestions for carrying out the intentions of the Government.

9. The Government will accept donations for special peizes, etc., from individual raiyats or associations.

10. *Applications from exhibitors.*—Intending exhibitors should apply to the Agricultural Superintendent of the State, Trichur, before the 1st of January 1909. In this application they must give full particulars of their exhibits and the group, etc., under which they fall. Information whether covered or open space is required, should also be given.

11. Any exhibits not falling under the groups, etc., as per appendix will also be admitted at the discretion of the Dewan Peishkar.

12. Meetings of the leading raiyats of the various taluks will be convened as early as possible to give them a clear idea of the object and scope of the exhibition so that they may avail themselves of the opportunity afforded for their improvement and they may co-operate intelligently with the Government to make the exhibition a success.

13. All applications should be addressed to the Agricultural Superintendent and must be superscribed "application for admission of exhibits to the Cochin Agricultural and Industrial Exhibition and Cattle Show, 1909." Applications will be registered by that officer. As the accommodation for the exhibits will be limited, applications received after the prescribed date may not be considered.

14. *Delivery of exhibits.*—Registered applicants should send their exhibits so as to reach the exhibition ground at least five days before the exhibition with a list in duplicate giving the description of exhibits according to the appendix. Exhibits for sale only should be marked "for sale." Ordinarily the exhibitors or their authorized agents should accompany their exhibits. Exhibits which could be sent in Railway goods or parcels should be sent in packages, the freight and transport charges being always borne by exhibitors. The Government will not be responsible for any risk or damage in cases where exhibits are not accompanied by owners.

The receipt of exhibits will be acknowledged by the duplicate list being signed by the Agricultural Superintendent and returned to the exhibitor.

15. *Passes for admission.*—No exhibits, exhibitors or visitors will be admitted to the exhibition ground without passes signed by the Dewan Peishkar which will be issued outside the exhibition ground.

16. The exhibitors should fix or remove the exhibits on their responsibility and should bear the expenses of the same. Ths Government will not be responsible for any loss or damage caused to the exhibits in the exhibition grounds. But the Government will be ever ready to help the exhibitors whenever necessary and responsible officials will be deputed to superintend the receipt into and removal from the exhibition grounds, of the exhibits.

17. Exhibits may be sold on exhibition grounds but shall not be removed till after the exhibition is over. Sales will be notified by a card affixed to the exhibit.

18. Noxious or dangerous exhibits will not be admitted. Perishable exhibits may be exhibited and removed on one and the same day.

19. Prizes will be offered only if the exhibits satisfy the quality required by the Judges to be appointed by the Government.

20. Prize winners will be furnished with certificates also in addition to prizes.

21. *Cattle Show.*—Separate arrangements will be made to accommodate different kinds of cattle. These will be arranged in a convenient place and selections made from them for the show.

22. Only cattle admitted to the show yards will be provided with fodder and water free by Government for the days of the show and for one day previous.

23. Every animal admitted to the show yards should be accompanied by a sufficient number of men to keep it under proper control.

24. Only cattle considered suitable will be allowed to compete in the cattle show for prizes.

25. No animal which has won one prize will be allowed to compete for any other prize.

26. Working cattle may at the option of the Judges be subjected to a practical test as to their power of draught. They must be the *bona fide* property of the exhibitor.

27. *Cattle fair.*—Outside the show yards will be held a fair, to which healthy cattle only will be admitted.

28. All persons who become exhibitors shall be held to signify their consent and acceptance to the above conditions and to such other conditions which the Government may hereafter prescribe.

29. The power to alter the prospectus as convenience may require is vested in the Dewan.

A. R. BANERJI,

10. Prospects of the season not satisfactory. Food stuffs are available; but their prices continue to be very high. The cooly classes find labour in sinking wells, repairing roads, executing earthwork to tanks, in sugar-cane mills, and under tangadi bark contractors for the present.

11. Except for plague in Kyalanur village of the Kolar Taluk and small-pox in parts of the Mulbagal Taluk, public health is generally good.

12. It is reported that "Rinderpest" is still prevailing in parts of Mulbagal, Sidlaghatta and Bagepalli Taluks and Gudibanda Sub-Taluk. Crops sown.—Paddy in Maddagiri, Chiknayakanhalli and Sira Taluks, and nat ragi and cholum in the Sira Taluk.

Crops harvested.—Sugar-cane in Tumkur and Maddagiri Taluks and Turuvekere Sub-Taluk. Avare, togari, and horse gram in Maddagiri, Sira and part of Tiptur Taluks and paddy in Gubbi Taluk.

10. Prospects of the season not satisfactory. The major portion of the district is now affected with scarcity. Relief works properly so called have not as yet been started, but a very large number of District Fund, Maramat and other works are in progress and afford labour to the poor. Food stuffs are available for the present, but their prices continue to be as high as before.

11. Except for small-pox in certain villages of the Maddagiri, Chiknayakanhalli and Tiptur Taluks, public health is generally good.

12. "Dod Roga" among cattle in the Tumkur, Maddagiri, Sira, Gubbi and Pavagada Taluks and the Turuvekere Sub-Taluk, is still prevailing. Fodder is procurable in limited quantities except in portions of Tumkur, Chiknayakanhalli, Tiptur, Pavagada and Kunigal and Turuvekere Sub-Taluk. Water scarcity is being felt in several villages of the Tumkur, Chiknayakanhalli, Gubbi, Tiptur, Pavagada and Kunigal Taluks and in the Turuvekere Sub-Taluk. Temporary wells are being sunk in many places.

Horse gram, green and black grams in parts of Yedatore Taluk. Bumpur crops in parts of Sosale Hobli in the T.-Narsipur Taluk. Ragi in parts of T.-Narsipur Taluk. Ragi is being thrashed in parts of Heggaddevankote, Malvalli, T.-Narsipur and Krishnarajpete Taluks.

Estimated outturn of crops.—

In the Seringapatam Taluk—Paddy, yield 16 annas.
Ragi, yield from 4 to 6 annas.

In the Malvalli Taluk—Paddy and ragi, yield 8 annas.

In the Mandya Taluk—Paddy and sugar-cane, Bengal gram and jola under tanks yield, less than 4 annas.

In the Krishnarajpete Taluk—Ragi, yield 4 annas.

10. Prospects of the season indifferent in some parts and not good in other parts. Food stuffs are available with raiyats and merchants, but their prices are still high. Some cases of distress were detected and relieved in Holesal and Bannur villages of T.-Narsipur Taluk, among working classes and Paradanashini women. Ragi was gratuitously distributed among some men in Kikkeri and Santebachahalli Hoblis of the Krishnarajpete Taluk and in the affected Hoblis of the Nagamangala Taluk.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of Mysore, Heggaddevankote, Gundlupet and Nanjangud Taluks and from "Chappe Roga" in parts of the Mysore Taluk. Fodder is scarce in parts of Mandya, Krishnarajpete and Nagamangala Taluks. It is reported that cattle from Channarayapatna Taluk have come to Muttarayanahosahalli Kaval, Hunsur Taluk, for grazing. Tanks in parts of the Mandya Taluk are running dry. Water is available for the present. It is reported from T.-Narsipur Taluk that while ragi and jola are imported, paddy and straw are being exported.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Sugar-cane and kadle in Hassan Taluk are reported to be withering for want of rain. Avare and kadle in the Arkalgud Taluk, sugar-cane and kadle in the Hole-Narsipur Taluk and avare, kadle, coriander and menthya in the maidan parts of the Belur Taluk are reported to be somewhat fair. Kadale sown in the beds of tanks in the Arsikere Taluk is reported to be flowering, while that in Channarayapatna Taluk is reported to be withering.

Agricultural operations.—Dry lands in parts of Channarayapatna Taluk are being ploughed (ಪೈರಾದರು ಉಳ್ಳ) as also wet lands in parts of Manjarabad Taluk.

Crops harvested.—Kadale in Hassan and Hole-Narsipur Taluks, transplanted ragi and paddy in Manjarabad Taluk, sugar-cane in Channarayapatna and Belur Taluks and Alur Sub-Taluk and wild gingelly in Arkalgud Taluk.

10. Prospects of the season generally fair, except in parts of Arsikere and Channarayapatna Taluks, parts of Dod Kadnur Hobli in the Hole-Narsipur Taluk and in parts of Madihalli and Halebidu Hoblis in the Belur Taluk, where the prospects are not encouraging.

11. Except for plague in parts of Hassan and Belur Taluks, public health is generally good. Measles in Hole-Narsipur Town and Alur Kasaba as also chicken-pox in Alur Kasaba are reported to be prevalent.

12. Cattle are generally in fair condition. "Dod Roga" is prevalent in parts of Manjarabad, Arkalgud and Arsikere Taluks. The Assistant Veterinary Inspector is in the Arkalgud Taluk for doing the needful. Fodder is generally available. In parts of Channarayapatna Taluk, dug-up grass is being used as also jola stalks and sugar-cane leaves in addition to ragi and paddy straw. Many cart-loads of ragi and paddy straw are taken to Arsikere from Hassan and Manjarabad Taluks and Alur Sub-Taluk. Difficulty for water having been felt in some taluks, needful steps are being taken. Many head of cattle which had been taken to the Manjarabad Taluk, from the maidan taluks, for grazing purposes are being taken back as the malnad pasture did not agree with the cattle.

SHIMOGA.

8. Market moderately supplied.

9. *Agricultural operations.*—Paddy is being harvested in Shikarpur, Sorab, Sagar, Nagar and Tirthahalli Taluks; ragi in Shimoga, Channagiri, Honnali and Sorab Taluks; avare in Shimoga, Channagiri and Honnali Taluks; areca in Sagar, Nagar and Tirthahalli Taluks; sugar-cane is being milled in Shimoga, Channagiri, Shikarpur, Sorab, Sagar, Nagar and Tirthahalli Taluks and in Kumsi Sub-Taluk.

Standing crops.—Bengal gram in Shimoga Taluk; cotton, jola, Bengal gram in Channagiri Taluk are not in good condition.

Probable outturn of crops.—

Shimoga Taluk—Paddy 4 to 8 annas.
Channagiri Taluk—Paddy 4 to 8 annas.
Ragi and other dry crops 4 to 8 annas.
Honnali—Paddy 4 to 8 annas.
Shikarpur—Paddy 8 annas.
„ Sugar-cane 8 annas.
Sorab—Paddy 10 annas.
„ Ragi 2 to 4 annas.
„ Sugar-cane 10 annas.
„ Areca 12 annas.
Sagar—Paddy 8 to 12 annas.
Nagar—Paddy 14 annas.
„ Sugar-cane 8 annas.
Tirthahalli—Paddy 10 annas.
„ Areca 12 annas.
Kumsi—Paddy 14 annas.
„ Horse gram 8 annas.
„ Ragi 10 annas.

Demand for labour—

In the affected villages of the Channagiri Honnali and Shimoga Taluks, there is not at present any great demand for labour. The labouring classes will be employed on harvesting operations for about a month more and works have been started or are in readiness in villages where there is need for labour.

General condition of the District—

The yield of the ragi and jolam crops has been poor in the affected villages but there is no cause for anxiety. Temporary wells have been sanctioned in places where scarcity for water is felt. The Sulekere tank is almost dry. Four temporary wells have been sanctioned to be excavated in the bed of the tank for the use of travellers and other persons who are expected to collect at Sulekere for the annual jatra there.

10. Prospects of the season uncertain. Food stuffs are available in the markets but the prices still continue to be high.

11. Public health generally good. Plague has subsided in the Shimoga Taluk and the Kumsi Sub-Taluk.

12. Fodder and water are available for the present. Murrain (Dod Roga) is still prevailing in Shimoga, Channagiri, Sorab, Sagar and Nagar Taluks.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing is going on in Chikmagalur, Mudgere and Yedahalli. Sowing of kar-paddy, sugar-cane and jola in parts of Kadur and of green gram in a few villages of Tarikere is also going on.

Standing crops.—

In Chikmagalur.—Coffee, jola, gingelly, kulthi, avare, Bengal gram, wheat, fenugreek, coriander, castor and sugar-cane.

In Kadur—Paddy, wheat, Bengal gram, avare, sugar-cane and castor.

In Tarikere—Bengal gram, sugar-cane, avare, jola, cotton, gingelly, togari and coriander.

In Koppa—Pepper, sugar-cane, coffee, and areca.

In Mudgere—Paddy, ragi, coffee and areca.

In Yedahalli—Sugar-cane, areca and coffee. Condition of standing dry crops is reported to be unsatisfactory for want of timely and sufficient rain.

Crops harvested and their yield.—

In Chikmagalur—Coffee, sugar-cane and avare, kulthi and castor, yield from 4 to 8 annas.

In Kadur—Castor, yield 2 annas; avare and Bengal gram, yield 4 annas and sugarcane 8 annas.

In Mudgere—Paddy, yield 8 annas; ragi, yield 2 annas; avare, yield 8 annas and coffee, yield 8 to 12 annas.

In Yedahalli—Areca, yield from 8 to 10 annas; sugar-cane, yield from 8 to 10 annas and coffee, yield from 10 to 12 annas.

10. Prospects of the season, though unsatisfactory, does not seem to call for any special arrangements to provide for labor. It being the harvesting time the poorer class find work in the fields and on ordinary Public Works in progress throughout the district. The local officers have been instructed to watch the situation and take the necessary steps in that direction without loss of time. Food stuffs are available, but their prices rule high.

11. Public health generally good except for plague in certain villages of the Kadur and Tarikere Taluks.

12. Cattle generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan portions of the district.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Cotton, paddy, wheat, avare, castor, sugar-cane, chillies, navane, jola, tobacco and ragi are reported to be withering for want of rain, except those under channel and kapile wells which are fairly in good condition.

Seeds sown.—Nil.

Crops harvested.—Castor, cotton, jola, tobacco and Bengal gram in the Holalkere Taluk yield 4 to 8 annas.

Works such as removal of prickly-pear, deepening wells, restoration of gokattes, earthwork to tanks, filling up of large pits, trenches and nalas in the vicinity of villages and road works, etc., have been started to relieve the distress of the poor and the needy in addition to takavi loans and gratuitous relief in grains in the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks. There is some demand for labour in the affected parts of the district, but it is not very great owing to the work at the takavi and private kapile wells and harvesting. As the harvest season has now come to a close, more labourers are expected hereafter. Fodder is insufficient, and the well-to-do raiyats get what they want from places where fodder is available by paying exorbitant prices. Water is made available by deepening the existing wells, and sinking new ones.

10. *Prospects of the season.*—Fair except in parts of Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks.

Food stocks.—Available.

11. Public health generally good.

12. Cattle healthy, except in parts of Chitaldrug and Holalkere Taluks, where Rinderpest prevails. Water and fodder available except in parts of Chitaldrug, Hiriyur, Challakere, Molakalmuru and Hosdurga Taluks.

10. Prospects of the season not satisfactory. Food stuffs are available; but their prices continue to be very high. To provide labour for cooly classes earthwork to tank has been

taken up in several places. Applications for loans are being encouraged and every endeavour is being made to dispose them off promptly. Cooly classes are engaged in sinking wells, repairing roads and are also employed in sugar-cane mills, and under tangadi bark contractors.

11. Except for plague in Kyalanur village, Kolar Taluk, and small-pox in parts of the Mulbagal Taluk, public health generally good.

12. It is reported that "Rinderpest" is still prevailing in parts of the Mulbagal, Sidlaghatta and Bagepalli Taluks and the Gudibanda Sub-Taluk. Water and fodder sufficient for the present. Paddy, cotton, castor, avare and togari in the Sira Taluk; horse gram and castor in the Pavagada Taluk; and avare and togari in the Koratagere Sub-Taluk.

10. Prospects of the season not satisfactory. The major portion of the district is affected with scarcity and the large number of works in progress in all the taluks are affording labour to the poor. Gratuitous relief is being granted in the Tumkur, Maddagiri, Chiknayakanhalli, Gubbi, Tiptur and Kunigal Taluks and the Turuvekere Sub-Taluk. Relief to weavers is being given in the Tumkur, Chiknayakanhalli, Gubbi and Tiptur Taluks and the Turuvekere Sub-Taluk. Food stuffs are available but their prices are high.

11. Except for small-pox in certain villages of the Maddagiri and Chiknayakanhalli Taluks and cholera in the village of Venkatapur in the Pavagada Taluk, public health generally good.

12. "Dod Roga" among cattle in all the taluks except the Koratagere Sub-Taluk is still prevailing. MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations*—Lands in parts of the Gundlupet Taluk are being ploughed for sowing kar seeds. Wet and dry lands are being ploughed in the T.-Narsipur Taluk.

Standing crops.—These are reported to be in fair condition in all taluks except in parts of the Mysore and Mandya Taluks, where they are withering for want of rain. Condition of Bengal gram in parts of the Nanjangud and Nagamangala Taluks is reported to be not good.

Crops harvested.—Togari in parts of the Hunsur Taluk; Bengal gram in parts of the Heggaddevankote Taluk; paddy in parts of the Malvalli Taluk; ragi in parts of the Yedatore, Heggaddevankote, Malvalli and Krishnarajpete Taluks, all these are being harvested.

Estimated outturn of crops.—

In the Seringapatam Taluk—{Paddy, yield 16 annas. / Ragi, yield from 6 to 8 annas.}

In the Malvalli Taluk—Paddy and ragi, yield 8 annas each.

In the Krishnarajpete Taluk—Ragi, yield 4 annas.

In the Mandya Taluk—Paddy, Bengal gram, sugar-cane and mulberry, less than 4 annas

10. Prospects of the season indifferent in some parts and not good in others. Food stuffs are available with raiyats and merchants, but their prices are still high. Ragi was gratuitously distributed among some men in the Hoblis of Kikkeri and Santebachahalli of the Krishnarajpete Taluk. 502 individuals in the Nagamangala Taluk are reported to be under gratuitous relief.

11. Except for plague in a few places, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of the Mysore, Heggaddevankote, Gundlupet and Nanjangud Taluks. Fodder is scarce in parts of the Mandya, Krishnarajpete and Nagamangala Taluks. Cattle from Mandya are reported to have been taken to Heggaddevankote Forests for grazing. Tanks in parts of the Mandya Taluk are running dry. Owing to scarcity of water in parts of the Hunsur and Mandya Taluks, temporary wells have been sunk. Water is available in other places.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Sugar-cane and Bengal gram in the Hassan Taluk are reported to be withering for want of rain. Avare and Bengal gram in the Arkalgud Taluk; sugar-cane and Bengal gram in the Hole-Narsipur Taluk; sugar-cane, Bengal gram, coriander and menthya in the maidan parts of the Belur Taluk; and paddy, sugar-cane, jola and Bengal gram in the Channarayapatna Taluk, are reported to be in fair condition. Bengal gram sown in beds of tanks in the Arsikere Taluk are reported to be flowering and bearing, while those of the Channarayapatna Taluk are reported to be withering for want of moisture.

Crops harvested.—Bengal gram in the Hole-Narsipur Taluk and the Alur Sub-Taluk; avare in the Belur Taluk and the Alur Sub-Taluk and sugar-cane in the Belur Taluk and the Alur Sub-Taluk.

10. Prospects of the season generally fair, except in parts of the Arsikere and Channarayapatna Taluks, in parts of Dod Kadur and Kasba Hoblis of the Hole-Narsipur Taluk and in parts of the Madihalli and Halebid Hoblis of the Belur Taluk, where the prospects are not encouraging.

11. Except for plague in parts of the Hassan and Belur Taluks, and measles in the Hole-Narsipur Town, public health is generally good.

12. Cattle are generally in fair condition. "Dod Roga" is prevalent in parts of the Manjarabad, Hole-Narsipur, Arkalgud and Arsikere Taluks. Fodder is generally available. In parts of the Channarayapatna Taluk, dug-up grass, jola stalks and sugar-cane leaves are being used as fodder in addition to ragi and paddy straw. Many cart-loads of ragi and paddy straw are being taken to the Arsikere and Channarayapatna Taluks from the Hassan and Manjarabad Taluks and the Alur Sub-Taluk. Want of drinking water having been felt in some taluks, additional funds have been applied for to enable sanction of estimates received for sinking wells in villages where they are urgently needed. It is reported from the Belur Taluk that temporary wells have been sunk in tank beds in several villages by raiyats of such villages. For subsistence of labourers, tank works have been started in the Channarayapatna and Arsikere Taluks. It is reported that the District Executive Engineer has been requested to start works in affected tracts in connection with the restoration of major tanks and collection of road materials.

SHIMOGA.

8. Market moderately supplied.

9. *Crops planted.*—Sugar-cane is being planted in the Kumsi Sub-Taluk and preparations for planting it are being made in the Honnali Taluk.

Standing crops.—White jolum, cotton and Bengal gram in Channagiri are not in good condition.

Crops harvested.—Paddy in the Shikarpur, Sorab, Sagar, Nagar and Tirthahalli Taluks; ragi in the Shimoga, Channagiri, Honnali and Sorab Taluks; Bengal gram in the Shimoga, and Honnali Taluks; togari in the Honnali Taluk; and areca in Sorab, Sagar, Nagar and Tirthahalli Taluks; sugar-cane is being milled in the Shimoga, Channagiri, Honnali, Shikarpur, Sorab, Sagar, Nagar and Tirthahalli Taluks and in the Kumsi Sub-Taluk.

Probable outturn of crops.—

In the Shimoga Taluk—Paddy, yield from 4 to 8 annas.
In the Channagiri Taluk—Paddy, yield from 4 to 8 annas.
Ragi and other dry crops yield from 4 to 8 annas.
In Honnali—Paddy and sugar-cane, yield from 4 to 8 annas.
In Sagar—Paddy, yield from 8 to 12 annas.
In Nagar—Paddy, yield 14 annas.
Sugar-cane, yield 8 annas.
In Tirthahalli—Paddy, yield 10 annas.
Areca, yield 12 annas.
In Kumsi—Horse gram, yield 8 annas.
Paddy, yield 14 annas.
Ragi, yield 10 annas.
In Shikarpur—Paddy, yield 8 annas.
Sugar-cane, yield 8 annas.
In Sorab—Paddy, yield 10 annas.
Ragi, yield from 2 to 4 annas.
Sugar-cane, yield 10 annas.
Areca, yield 12 annas.

10. Prospects of the season uncertain. Food stuffs are available in the markets but their prices still continue to be very high.

Demand for labour.—Since all the raiyats are busily engaged in harvesting operations no great demand for labour exists at present.

General conditions of the district.—As tanks in several villages in the Shimoga Taluk have not got any water in them, people have to go a long way to fetch water for drinking purposes. The Amildar has been asked to submit a list of villages wherein necessity exists for sinking temporary wells. It is only during summer that water scarcity will be felt in such villages; but temporary wells will be sunk in the meantime wherever they are urgently needed. Although the yield of dry crops in some of the villages of the Shimoga, Channagiri and Honnali Taluks is poor, yet no cause for anxiety exists.

11. Public health generally good.

12. "Dod Roga" is still prevalent in some of the villages of the Shimoga, and Channagiri Taluks. It is subsiding in the Sorab and Sagar Taluks. Water and fodder are available for the present.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing in Chikmagalur, Mudgere and Yedahalli, and sowing of kar-paddy in a few villages of the Kadur Taluk are going on.

Standing crops.—

In Chikmagalur—Coffee, jola, gingelly, kulthi, avare, Bengal gram, wheat, fenugreek, coriander, castor and sugar-cane.

In Kadur—Paddy, wheat, Bengal gram, avare, sugar-cane and castor.

In Tarikere—Bengal gram, sugar-cane, avare, jola, cotton, gingelly and coriander.

In Koppa—Sugar-cane, pepper, coffee and areca.

In Mudgere—Paddy, ragi, coffee and areca.

In Yedahalli—Sugar-cane, areca and coffee.

In Sringeri—Nil.

Condition of these standing crops is reported to be unsatisfactory owing to want of timely and sufficient rain.

Crops harvested and their yield.—

In Chikmagalur—Sugar-cane, avare, kulthi, castor and coffee, yield from 4 to 8 annas.

In Kadur—Sugar-cane, yield 8 annas; and Bengal gram, yield 4 annas.

In Mudgere—Paddy, coffee and areca, yield 8 annas.
Coffee, yield from 10 to 12 annas.
Areca, yield from 8 to 10 annas.

10. The present condition, though unsatisfactory, does not seem to call for any special arrangements being made to provide for labour. It being the harvesting time, the poorer class find labour in the fields and ordinary public works in progress throughout the district. The local officers have been instructed to watch the situation and take necessary steps in that direction without loss of time. Food stuffs are available, but their prices are high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan portions of the district.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as paddy, jola, wheat, cotton, sugar-cane, Bengal gram, castor, chillies, horse gram, tobacco and navane are reported to be withering for want of rain, except those under channels and kapile wells which are in fairly good condition.

Crops sown.—Nil.

Crops harvested and their yield.—Castor, cotton, jola, tobacco and Bengal gram, yield from 4 to 8 annas.

10. Prospects of the season fair, except in parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks. Food stuffs available.

There is demand for labour in the affected parts of the district. Road works, deepening of wells, removal of prickly-pear, restoration of gokattes, tank works, filling up of large pits, etc., in the vicinity of villages have been started to relieve the distress of the poor and the needy in addition to the takavi loans and gratuitous relief by grant of grain doles in parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where Rinderpest prevails. Water and fodder available except in parts of the Chitaldrug, Challakere, Hiriyur, Molakalmuru and Hosdurga Taluks. Fodder being insufficient, it is procured at high rates from places where the same is available. Water has been made available in many places by deepening existing wells and also by sinking new ones.

10. Prospects of the season not satisfactory. Food stuffs are available but their prices are high. A large number of District Fund, Maramat and Municipal works now in progress in all parts of the district, are affording sufficient labour to the poor. Gratuitous relief is also being given to deserving persons in affected parts.

11. Except for plague in certain villages of the Tumkur Taluk, small-pox in the taluks of Maddagiri, Chiknayakanhalli and Tiptur, and cholera in Venkatapur in the Pavagada Taluk, public health generally good.

12. "Dod Roga" is still prevailing in all the taluks except Chiknayakanhalli and Kunigal and the Koratagere Sub-Taluk. MYSORE.

8. Markets fairly well supplied.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds; and lands in the T.-Narsipur Taluk have been ploughed and people there are anxiously looking forward for the "Mungar".

Sugar-cane, Bengal gram and castor in parts of the Mysore Taluk and paddy in parts of the Mandya Taluk, are reported to be withering for want of water. Number of people under relief.—Forty-seven individuals in the Mandya Taluk and 554 in the Nagamangala Taluk are reported to be under gratuitous relief. The number in the Mandya Taluk is likely to increase with the progress of the season as private charity is gradually contracting. It is reported that, in the Krishnarajpete Taluk, nearly Rs. 130 have been paid to coolies employed on tank works and ragi worth Rs. 115 has been gratuitously distributed to relieve distress. At Bannur in the T.-Narsipur Taluk, private charity is being organized for relieving distress which is beginning to be extent among the very poor and *paradanashin* classes there. Fodder is scarce in parts of the Krishnarajpete and Nagamangala Taluks. In the Mandya Taluk it is available for the present in all the villages, owing to the scanty stock having been increased by large purchases of paddy straw from the Seringapatam, T.-Narsipur and Yedatore Taluks. Difficulty for drinking water in the Mandya Taluk is increasing more and more as the existing sources are fast drying up. Villagers themselves are sinking temporary wells and deepening old ones in the majority of the villages. Water is available at present in other places.

HASSAN.

8. Markets fairly well supplied, but their prices are high.

9. *Agricultural operations.*—Wet lands in the Manjarabad Taluk are being ploughed.

Report is the same as in last week as regards water difficulty in parts of the district and the relief measures adopted for overcoming the same.

In Chikmagalur—Bengal gram and sugar-cane, yield from 4 to 8 annas.
Castor, fenugreek and gingelly, „ 2 to 4 „
In Kadur—Wheat and Bengal gram, yield, 4 annas.
In Tarikere— „ „ „ 12 „
Sugar-cane „ 8 „

In Mudgere—Coffee and areca „ 8 „
In Yedahalli—Areca, yield from 8 to 10 annas.
Sugar-cane, yield from 8 to 12 annas.

10. Though the prospects of the season continues unsatisfactory as in the previous weeks, yet there seems to be no necessity for any special arrangements being made to provide for labour, owing to the poorer classes being able to find labour in the fields and the ordinary public works in progress throughout the district. Food stuffs are available, but their prices continue to be still high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy. Water and fodder are available in the malnad but difficulty is felt in procuring them in the maidan portions of the district.

CHITALDRUG.

10. Prospects of the season fair, except in parts of the Chitaldrug, Challakere, Hiriyur, Hosdurga, Jagalur and Davangere Taluks. To relieve the distress of the poor and needy many works have been started in the affected parts of the district. There is great demand for takavi loans and for gratuitous relief in the affected parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks and the Harihar Sub-Taluk. There are 40 works in progress in several villages of the district. Food stuffs are available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where Rinderpest is prevailing. Water and fodder available except in parts of the Chitaldrug, Challakere, Hiriyur, Molakalmuru and Hosdurga Taluks. Fodder being insufficient, it is got at very high rates in places, where it is available; and in places where it cannot be had, cattle are being taken away to forests for grazing there. Some from the Hosdurga Taluk have availed themselves of the Government concession of obtaining fodder free from the Forest Department at Tarikere. Water is made available in many places by deepening existing wells and sinking new ones.

12. Cattle healthy, except in parts of the Chitaldrug, Holalkere and Davangere Taluks, where Rinderpest is prevailing. Water and fodder available except in parts of the Chitaldrug, Challakere, Hiriyur, Molakalmuru and Hosdurga Taluks. Fodder is insufficient. Those that can afford it get it at very high rates from places where it can be had, and the others take their cattle to forests for grazing. Some persons from the Hosdurga Taluk have gone to Tarikere to procure free fodder collected by the Forest Department. Water is made available when it is found necessary, by deepening existing wells and by sinking new ones.

No. R. 7596—*Agri.* 36-08-11, *dated* 24*th March* 1909.

The revised prospectus and the rules of the Arni Jahgir First Agri-Horticultural Exhibition to be opened on the 3rd April 1909 are published for general inform ation.

By Order,

Secy. to Govt., Gen. & Rev. Depts.

PROSPECTUS OF THE ARNI JAHGIR FIRST AGRI-HORTICULTURAL EXHIBITION, 1909.

The Jahgirdar of Arni proposes to hold an Agri-Horticultural Exhibition at Sathvavijianagaram, the head-quarters of his Jahgir, in the district of North Arcot, on the 3rd day of April 1909.

The Hon'ble Mr. Murray Hammick, C.S.I., C.I.E., I.C.S., of the Executive Council of His Excellency the Governor of Madras, has kindly consented to open the Exhibition on the morning of Saturday of 3rd April 1909. The Exhibition will be kept open to the public till the 10th April following. Endeavours are being made to make as good a presentation as possible of the different departments of Agriculture as given below.

It need hardly be mentioned that a great deal of the success of the Exhibition necessarily depends on the extent of sympathy and co-operation of the Officers of Government, and the public bodies and private individuals who are interesting themselves in the economic advancement of the country. It is submitted that more attention is being devoted to articles of utility than to those of ornamentation. In view of the educative effect that the Exhibition, if successful, is bound to produce, it is confidently hoped that sufficient help and co-operation will be forthcoming from every direction to which appeal has been and is being made. It may not be out of place to mention that the Department of Agriculture of the Government of Madras have issued necessary orders for ensuring help to the Exhibition.

A copy of the rules is also appended hereto for the information of intending exhibitors.

Intending exhibitors are earnestly requested to fill up a forwarding note containing the particulars given in Rule No. 6, and to forward therewith the exhibits to the Honorary Secretary so as to reach Sathyavijianagaram before the 31st instant. All exhibits may be sent to the Arni Railway Station, on the South Indian Railway where an agent is posted for the purpose of taking delivery of the exhibits.

In addition to Money Prizes and Medals that are proposed to be given to successful competitors, special gold medals will be awarded to Exhibitors competing under groups XVII, XVIII and XIX.

All communications may be addressed to the Honorary Secretary.

L. SRINIVASA RAGAVA AIYAR,
Honorary Secretary.

(*a*) The return was not received from Shikarpur Taluk.

(*b*) Amounts sanctioned and disbursed by the Deputy Commissioner and Sub-Divisional Officers (Chitaldrug District), for which separate returns are received, were also being included in the taluk returns for the previous weeks. The mistake has been rectified in the present statement.

N. B.—(1) The figures under "Loans to artizans" in the Bangalore District is in excess of the allotment sanctioned for the purpose, as advances are made also out of the realisations from the sale of cloths.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Correspondence ending with letter No. 127, dated the 3rd September 1908, from the Deputy Commissioner, Mysore District, on the subject of fostering the growth of sandal trees in occupied lands in the Mysore State.

No. R. 7699-708—FT. 13-05-17, DATED BANGALORE, 25TH MARCH 1909.

ORDER THEREON.—The Government of His Highness the Maharaja have for some time past been considering how far it is practicable to give land-holders an interest in the protection of sandal trees growing on their land, and, again to afford reasonable facilities for the removal of such of them as interfere with the agricultural or other legitimate use of their holdings, with a view to enlisting the willing co-operation of the raiyats in the propagation and conservancy of this most valuable product.

2. The present position of the land-holder with reference to sandalwood trees is briefly as follows. All sandal trees standing in private holdings are the property of Government, and the land-holder is responsible for their preservation. In case of any injury to such trees, he is bound to report the fact to the nearest Revenue Officer and is liable to pay compensation to Government, unless he can prove that the injury was not due to his own act or negligence. Further, he cannot claim to have any tree removed on the ground that it obstructs the lawful use of his land, while the officer of Government who has to deal with such cases has no clear rules to guide him. This system, while it imposes on the land-holder irksome responsibilities compensated by no prospect of ultimate profit, offers a convenient opening for the gratification of private malice and has other undesirable results.

3. The evils of the system have formed the subject of frequent representations in the Representative Assembly and, for many years past, have been a matter of solicitude to successive administrations. In 1872 Col. Van Someren, Conservator of Forests, proposed to provide an inducement to the raiyat to take care of the trees on his land by paying him a commission of 15 per cent of the value of trees removed from his holding at the instance of Government. In 1875 Sir Richard Meade, then Chief Commissioner of Mysore, notified that, with a view to encourage the conservation of sandal trees on occupied lands, a percentage of the value of all such trees felled on their lands would be allotted to the occupants in certain proportions ranging from 5 to 15 per cent, depending on the length of time that the land had been in the possession of the occupant when the tree was felled. This notification was to come into force on the 1st April 1876, but the framing of rules intended to give effect to the safeguards then considered essential offered so much practical difficulty that the scheme was abandoned. The scheme provided that the land-holder's percentage should be calculated and paid at the forest depot after the actual value of the tree, the number of years during which the land-holder had been in possession of the land and other particulars had been ascertained. This involved the preparation and maintenance of a voluminous record and the adoption of numerous precautions against fraud and it was decided that the burden of work thus entailed was not one which could be imposed on the subordinate revenue and village agencies.

4. Since 1875 the subject has now and again come under consideration without any satisfactory conclusion being reached. The Government of His Highness however consider that the practical difficulties attendant on the scheme should not be permitted to stand permanently in the way of a measure, the desirability of which has so long been recognised. The subject has therefore been again taken up for consideration and during the last year, the opinions of the Revenue Commissioner, the Deputy Commissioners of Districts and of certain other official and non-official gentlemen have been obtained. The question has been thoroughly discussed in all its aspects and the opinion elicited, which is almost unanimous, is that it would be both a gracious concession and good policy to give the raiyat a share in

the profits derived by Government from trees growing on his holding and to afford him facilities for the removal of such sandal trees as are obstacles to the legitimate use of the land.

5. In either case it is necessary to estimate the value of the tree removed and Government consider that the method adopted for this purpose should be as simple as possible. They propose therefore to exclude all consideration as to the length of time during which the raiyat has been in possession of the land. They believe that in the girth of a tree is to be found a fair and simple measure of its value and that, if the trees are separated into a few well-defined classes according to their girth, it will be possible to estimate the amount payable with a reasonable degree of accuracy. Government are therefore pleased to direct that the girth of a sandal tree be taken as the basis for the computation of the bonus.

6. As this concession is intended partly to serve as an incentive to the raiyats to pay greater attention in the future than they have done in the past to the sandal trees on their lands, Government consider that it would be sufficient to adopt somewhat lower rates during the next ten years and to bring the full rates into force after the expiration of that period. They are therefore pleased to direct that amounts calculated according to the rates fixed in the following scale be paid to occupants from whose lands sandal trees are removed. This scale is only for mature trees:—

Class	Girth of tree at 4 ft. above ground level	Bonus payable	
		First 10 years	Afterwards
	Inches	Rs. a. p.	Rs. a. p.
I	Below 12	0 8 0	0 8 0
II	12 to 21	1 8 0	1 8 0
III	21 to 30	3 8 0	4 8 0
IV	30 to 36	4 0 0	7 8 0
V	Above 36	5 0 0	10 0 0

Note.—A mature tree is one which is showing signs of decay. This is indicated by the following external symptoms:—

(*a*) dead main branches and leading shoot,
(*b*) decay of bark, and
(*c*) pale color and diminutive size of the leaves.

A further and infallible test is that the heart-wood must not be at a lower depth than one inch from the surface.

7. If a tree dies before attaining maturity, and the District Forest Officer is satisfied that the premature death of the tree was due solely to natural causes, such as lightning or spike disease, over which the occupant had no control, or which he could not have prevented, payment will be made at the same rates as those prescribed above for mature trees, but the girth of the dead tree will be measured with the white wood removed. On trees which have been destroyed by fire no bonus will be paid.

8. Separate rules as in the appendix to this order will be issued regarding the procedure to be followed in connection with the removal of mature trees and the payment of bonuses thereon.

9. While recognising the desirability of affording facilities for the removal of trees that interfere with the legitimate use of holdings, Government are bound to consider the fact that the removal of immature trees causes appreciable loss of revenue. It is therefore only fair that reasonable compensation should be levied from raiyats requiring such removal, and this is the practice in the adjoining Province of Coorg. The rates of compensation in force there vary from Rs. 3-2-0 for a tree of 3 " in girth to Rs. 25 for a tree of 48", and it is also provided that the

marketable value, if any, of the tree when removed should be ascertained and deducted from the fine payable. The Government of His Highness are however of opinion that the end to be kept in view is not the securing of a full revenue but the discouragement of unnecessary applications, and that this can be attained by means of a simpler rule of compensation. They are accordingly pleased to direct that when it is proved that the removal of a tree is necessary for the legitimate enjoyment of any land, it shall be competent to the District Forest Officer to permit the removal of such tree on payment by the occupant of compensation fixed according to the following scale :—

Class	Girth at 4 ft. above ground level	Amount of compensation payable to Govt. by the occupant	Class	Girth at 4 ft. above ground level	Amount of compensation payable to Govt. by the occupant
	Inches	Rs. a. p.		Inches	Rs. a. p.
I ...	Below 12	1 0 0	III ...	24 to 30	4 0 0
II ...	12 to 24	2 0 0	IV ...	Above 30	6 0 0

The claim for compensation may, however, be waived in cases of hardship at the discretion of the District Forest Officer, when the amount to be remitted is not more than Rs. 10 in regard to the same survey number. When the amount exceeds Rs. 10 but does not exceed Rs. 50, the Conservator of Forests may similarly waive the claim for compensation at his discretion. When the amount proposed to be remitted exceeds Rs. 50, the case shall be reported for the orders of the Government.

No compensation will be levied on mature trees or on trees not exceeding 4" in girth. Bonuses will be paid on mature trees removed by desire of the occupant at the rates mentioned in paragraph 6 above.

It should be noted that the rules in this paragraph apply only to the removal, within a reasonable limit, of trees interfering with the legitimate use of any land, and not where the removal of trees on a large scale is asked for.

10. Government are aware that the measures now adopted do not cover the whole ground and that certain disabilities can only be removed if the raiyat is further relieved of the burden of proving his own innocence in the case of damage to sandal trees standing on his land. In view of the fiscal and economic importance of the tree, Government do not feel justified in taking such a step. They trust, however, that these concessions will mitigate to a substantial degree the rigour of the monopoly and encourage land-holders to co-operate with Government in the propagation and preservation of sandal trees in the State.

NOTIFICATION.

No. 7709—Ft. 13-05-18, dated 25th March 1909.

Under Section 76 of the Mysore Forest Regulation (XI of 1900), the Government of His Highness the Maharaja are pleased to issue the following rules regarding the removal of sandal trees from occupied lands and the payment of bonuses to the occupants thereof :—

(1) No land owner shall have the right to insist that a sandal tree standing on his land be removed on the ground that it has grown to maturity or on any other ground than that of obstruction to cultivation or to object to the removal of any tree by the Forest Department in the course of its ordinary operations. The selection of the trees to be removed shall rest entirely with the officers of the Forest Department and those acting under their orders.

(2) Every mature sandal tree intended for removal in occupied lands shall be marked by the Range Officer with a hammer bearing the monogram S. F. (S standing for sandal and F for fell) just above the root stock after removing the outer bark and white wood. It will also have a serial number stamped on it corresponding with that contained in a register to be maintained by the Range Officer showing all the trees marked by him. This register will be maintained, according to Form C, appended hereto, and a monthly extract therefrom will be sent to the District Forest Officer.

(3) The Range Officer will then prepare a receipt in Form A, appended hereto, and give a credit note on the nearest Taluk Treasury showing the amount of bonus payable to the occupant. The receipt will contain the signature of the occupant both in the counterfoil and the duplicate and will be attested by the Patel and Shanbhog. The counterfoil will be sent to the Amildar simultaneously with the issue of the credit note and will be passed on by the Amildar to the District Forest Officer after the credit note is cashed with the fact of payment endorsed thereon. The District Forest Officer after the necessary check will return it to the Range Officer to be filed as a voucher.

(4) After the credit note is issued, the tree will be uprooted and roughly dressed, leaving a ring at the point where the measurement was taken and sent to the Koti intact accompanied by the usual Passport (*vide* Form No. 55 of the Forest Code). In the "Remark" column of the form, the Range Officer will note the girth measurement of the tree, the survey number of the field and the name of the owner.

(5) The Koti Ranger or Forester, on receipt of the tree, will check the measurement and submit to the District Forest Officer a list of trees received during the month, on the first of the ensuing month in Form B appended hereto.

(6) The District Forest Officer will compare and check the Koti list with the entries in the Ranger's register and vouchers. If they agree, he will file them; but if any discrepancies are noticed, he will take immediate steps to trace and reconcile the same.

(7) The District Forest Officer during the course of his tours, will check at least 15 per cent of uprooted trees by actually measuring the trees at the Koti and inspecting the localities from where they were uprooted and submit a certificate to that effect to the Conservator.

(8) In all cases where an occupant of land wishes to have any sandal tree growing on his holding removed, on the ground that it interferes with the legitimate use of his land, he shall make an application in that behalf to the Amildar. The Amildar on receipt of such application shall furnish the applicant with a written acknowledgment of the application and, after causing the necessary enquiry to be made, will forward the application with his own opinion to the District Forest Officer. The District Forest Officer after such further enquiry as he may deem necessary and on being satisfied that the ground is valid will order the removal of the tree on payment of any compensation which may be prescribed in that behalf. The District Forest Officer's opinion as to the necessity for the removal of the tree will be final.

(9) If the applicant does not receive any answer within three months from the date of the acknowledgment received by him, permission shall be deemed to have been granted to him for the removal of the tree and he shall become entitled to all the benefits which he could have claimed according to the orders of Government if the tree had been removed by the Forest Department.

After Rule 41 of the Land Revenue Rules, the following rule will be added :—

1. *Rule 41 A.*—Lands containing sandal trees when granted for occupation shall always be sold by auction and the upset price to be levied shall be calculated so as to include the present value of the bonus which the applicant might become entitled to receive by virtue of his ownership of the land for the sandal trees thereon under the orders of Government for the time being in force in this behalf.

2. Before any land containing a large number of sandal trees is granted for cultivation, the Forest Department shall be consulted and if there is a thick growth of sandal trees on the whole survey number, such number shall be reserved for Government. If there is a growth only in a portion of the survey number and the remaining portion does not contain many trees, such remaining portion may be granted for cultivation after being formed into a separate survey number, provided the extent does not fall below the minimum for the tract. In special cases where it is possible to mark off the portion containing sandal trees and reserve it, such portion even if below the prescribed minimum, may, with the sanction of the Revenue Commissioner, be sub-divided and reserved to Government, the remaining portion of the survey number being alone granted for cultivation with a proportionate reduction of assessment.

11. Public health generally good.

12. Cattle healthy, except in certain parts of the district, where Rinderpest is prevailing. Water and fodder available, except in the affected parts of the district and in Molakalmuru. Fodder being insufficient in certain places is being bought by some at very high rates. Those that cannot-afford to pay such high prices take their cattle to forests for grazing. Date leaves are also being used in some places. Water is made available in places where it could not be had by deepening existing wells and by sinking new ones.

† Figures for Tiptur and Sagar Taluks for the previous weeks, being incorrect, the mistake has been rectified in the present statement. Hence the difference.

‡ The Amildar of Chikmagalur explains that applications involving a sum of Rs. 140, which had been sanctioned, were withdrawn on the option of the parties. Hence the difference in the amount sanctioned.

Temporary wells are being sunk wherever difficulty for water is felt. Fodder is scarce in parts of the Mandya Taluk.

HASSAN.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands are being ploughed throughout the district, and manured in parts.

Standing crops.—Kar paddy in the Manjarabad Taluk and sugar-cane in the Channarayapatna and Hole-Narsipur Taluks and the Alur Sub-Taluk, are in fair condition. Sugar-cane in the Hassan Taluk is withering for want of water.

Crops sown.—Paddy in parts of the Belur and Manjarabad Taluks; gidda ragi, gingelly, jola and green gram in parts of the Channarayapatna Taluk, are being sown.

Estimated outturn of crops.—Sugar-cane, yield from 8 to 12 annas.

10. Prospects of the season have improved; but more rain is eagerly looked for in all parts of the district to enable ploughing the lands and sowing the *mungar* crops. Food stuffs are available.

11. Except for cholera in parts of the Arkalgud Taluk, ague and dysentery in parts of the Manjarabad Taluk and small-pox and measles in parts of the Hole-Narsipur Taluk, public health generally good.

12. Cattle are generally in fair condition, except in parts of the Channarayapatna Taluk, where they are reported to be emaciated. "Dod Roga" is still prevalent in parts of the Arsikere and Hassan Taluks. Water and fodder are available in limited quantities. Temporary wells have been sunk, wherever necessary. Pasture is reported to have sprung up in parts of the Hole-Narsipur Taluk, owing to recent showers. Paddy straw continues to be imported into the Arsikere and Channarayapatna Taluks. In the latter taluk, it is supplemented by date and sugar-cane leaves.

SHIMOGA.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands are being ploughed and manured in all parts of the district.

Standing crops.—Sugar-cane in all the taluks of the district is in moderately good condition. But it requires more rain in the maidan parts.

Crop sown.—Sugar-cane in some parts of the Shimoga and Nagar Taluks.

Crops harvested.—Nil.

10. Prospects of the season uncertain. Rain is anxiously looked for. Food stuffs are available but their prices continue to be high.

11. Except for fever in some parts of the Malnad Taluks, public health generally good.

12. "Dod Roga" still continues in parts of the Shimoga and Honnali Taluks. Water and fodder are available for the present.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing in Chikmagalur, Kadur, Mudgere and Yedahalli.

Standing crops.—

In Chikmagalur and Kadur—Kar paddy and sugar-cane.

In Koppa—Pepper and sugar-cane.

In Mudgere—Kode paddy.

No standing crops in other taluks.

The standing crops are in unsatisfactory condition for want of timely and sufficient rain.

Crops harvested and their yield.—

In Kadur—Sugar-cane, yield 8 annas.

In Koppa—Pepper and sugar-cane, yield on a small scale.

10. Prospects of the season continue to be the same as in the previous weeks. People throughout the district are anxiously looking forward for rain. Food stuffs are available, but their prices continue to be high.

11. Public health generally good.

12. Cattle are generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan parts of the district.

N. B.—Report not received from Sringeri.

CHITALDRUG.

8. Market well supplied.

9. *Agricultural Operations.*—Raiyats are engaged in preparing their lands in parts of the Hiriyur, Hosdurga and Challakere Taluks, where there were some showers during the past week. Raiyats are anxiously expecting the "Bharani" rains to commence the ploughing and sowing operations.

Standing crops, such as paddy, jola, navane, tobacco and cotton under wells and channels are reported to be in fairly good condition.

Crops sown.—Nil.

Crops harvested and their yield.—

Jola and navane in the Challakere Taluk, yield 4 annas.

Paddy in the Challakere and Holalkere Taluks, yield from 6 to 8 annas.

10. Prospects of the season fair, except in parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks. Food stuffs available. On account of demand for labour in the affected parts of the district, several works were started to relieve the distress of the poor and the needy. Takavi loans and gratuitous relief in grains were also given to the poor and helpless raiyats in the affected parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur and Hosdurga Taluks and the Harihar Sub-Taluk.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug, Holalkere, Hosdurga and Davangere Taluks, where 'rinderpest' prevails. Water and fodder available, except in parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Molakalmuru and Hosdurga Taluks and the Harihar Sub-Taluk. Fodder is insufficient. Those that can afford it, get it at very high rates from places where the same is available; while others take their cattle to forests where fodder could be had. Date leaves are also used for cattle in some parts. Water difficulty is on the increase, but every effort is being made to lessen the hardship by deepening existing wells and sinking new ones.

10. Prospects of the season, though indifferent in parts, are getting more hopeful with the recent rains. Food stuffs are available in all the taluks. In Nagamangala the well-to-do raiyats have stock of grain. Two hundred and ninety-nine persons in the Nagamangala Taluk are reported to be under gratuitous relief and the expenditure has amounted to Rs. 1,673-9-5. There are none under relief in the Mandya Taluk. In the Krishnarajpete Taluk Rs. 689-2-0 have been paid to coolies employed on tank works and ragi worth Rs. 421-13-9 has been gratuitously distributed. More rain is needed in villages south of Hura in the Nanjangud Taluk; and Sosale and Bannur hoblis of the T.-Narsipur Taluk.

11. Except for plague in parts of Mysore, Hunsur, Gundlupet and Nanjangud Taluks; cholera in parts of Hunsur Taluk; small-pox and measles in parts of Malvalli Taluk, public health generally good.

12. "Dod Roga" and "Chappe Roga" are still prevailing among cattle in parts of the district, but they are subsiding in the T.-Narsipur Taluk. Cattle are being inoculated in parts of the Malvalli Taluk. Fodder is scarce in parts of the Mandya Taluk. Temporary wells are being sunk wherever difficulty for water is felt.

HASSAN.

8. Market fairly well supplied.

9. *Agricultural operations.*—Ploughing and manuring lands continue throughout the district. Paddy in parts of Manjarabad, Belur and Alur Sub-Taluk; black and green grams, jola and gingelly in parts of Arsikere Taluk; gidragi, jola, gingelly and green gram in parts of Channarayapatna Taluk are being sown.

Standing crops.—Sugar-cane in parts of Belur, Channarayapatna and Hole-Narsipur Taluks and in Alur Sub-Taluk, and kar paddy in parts of Manjarabad Taluk and Alur Sub-Taluk are in a fair condition. Sugar-cane is withering in parts of Hassan Taluk.

Outturn of harvest.—Sugar-cane 8 annas in the Channarayapatna Taluk.

10. Prospects have improved. More rain is required in all parts of the district for sowing the *mungar* crops. It is reported that some of the tanks in the Channarayapatna and Hole-Narsipur Taluks have received some supply of water. Food stuffs are available.

11. Except for ague and dysentery in parts of Manjarabad Taluk, and cholera in parts of Arkalgud Taluk, public health is generally good.

12. Cattle are generally in fair condition, but "Dod Roga" still prevails in parts of Arsikere Taluk and Alur Sub-Taluk. Fodder is available in limited quantities and water-supply has improved owing to recent showers. Paddy straw continues to be imported into the Arsikere and Channarayapatna Taluks.

SHIMOGA.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands are being ploughed and manured throughout the district.

Standing crops.—Sugar-cane in all taluks of the district is in moderately good condition. But requires rain in the maidan parts.

Crops sown.—Paddy in some parts of Sagar Taluk and sugar-cane in Nagar Taluk.

Crops harvested.—Nil.

10. Prospects of the season uncertain. People are anxiously looking forward for rain throughout the district. Food stuffs are available in the market, but their prices continue to be high.

11. Except for cold and fever in some parts of the malnad taluks, public health is generally good.

12. Fodder and water are available for the present. Murrain still continues in parts of Shimoga and Honnali Taluks.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Lands all over the district are being ploughed.

Standing crops.—In Chikmagalur and Kadur, kar paddy and sugar-cane; in Koppa, pepper and sugar-cane; in Mudgere, Kodi paddy. These crops are reported to be in an unsatisfactory condition for want of timely and sufficient rain. No crops in other taluks.

Crops harvested and their yield.—

Kadur—Sugar-cane, yield 8 annas.
Koppa—Pepper and sugar-cane, yield on a small scale.

10. Prospects of the season appear to be somewhat encouraging by recent showers, but are still uncertain. More rain is eagerly looked for in all parts of the district to enable ploughing and sowing. Food stuffs are available, but their prices are still high.

11. Public health generally good.

12. Cattle are generally healthy. "Dod Roga" and foot and mouth disease are declining in the taluks of Chikmagalur and Kadur. Water and fodder are available in the malnad, but difficulty is felt in procuring them in the maidan parts of the district.

CHITALDRUG.

8. Market well supplied.

9. *Agricultural Operations.*—Raiyats were engaged in preparing their lands in parts of the Hiriyur, Hosdurga, Challakere and Holalkere Taluks, where there were some showers and they are anxiously expecting more rain to commence ploughing and sowing operations.

Standing crops, such as paddy, tobacco, sugar-cane and cotton under kapile wells, are reported to be in fairly good condition.

Crops sown.—Nil.

Crops harvested.—Paddy in the Challakere and Molakalmuru Taluks, yield 2 to 8 annas; navané and jola in the Challakere Taluk, yield 2 to 4 annas.

10. Prospects of the season fair, except in parts of the Chitaldrug, Hiriyur, Challakere, Davangere, Jagalur and Hosdurga Taluks. Food stuffs available. On account of demand for labour in the affected parts of the district, several works were started to relieve the distress of the poor and the needy. Takavi loans and gratuitous relief in grains were also given to the poor and helpless raiyats in the affected parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Jagalur, Hosdurga Taluks and Harihar Sub-Taluk.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug, Holalkere, Davangere and Hosdurga Taluks. Water and fodder available, except in parts of the Chitaldrug, Challakere, Hiriyur, Davangere, Molakalmuru, Hosdurga Taluks and Harihar Sub-Taluk. But fodder is insufficient; those that can afford get it at very high rates from places where the same is available; while others take their cattle to forests where it could be had. Date leaves are also used for cattle in some parts. Water difficulty is on the increase, but every effort is being made to lessen it by deepening the existing wells and sinking new ones.

10. Prospects of the season fair. The copious rainfall during the week, throughout the whole district has improved the situation considerably. All the tanks have received two to six months supply of water. The grass has already begun to sprout up. The agricultural classes are busily engaged in ploughing and sowing operations. The out-look is very encouraging. Food stuffs are available.

11. Public health generally good.

12. Fodder and water are available. Cattle healthy, except in parts of Chitaldrug, Holalkere, Davangere, Hosdurga Taluks and Harihar Sub-Taluk, where rinderpest prevails.

GENERAL NOTE.

The following is a brief summary of the more important variations in the figures :—

PART I—Agricultural Statistics.

1. There is an increase of 3,189 acres in the total area (column 2—Table A-1 area according to professional survey); due chiefly to the revision settlement operations in the Channagiri and Molakalmuru Taluks and to minor corrections made in the Akarband by the Survey Department.

2. The total area of the State is nearly 19 million acres of which no returns have been rendered for about 1⅓ millions comprising alienated villages and Jahgirs. Out of the balance of about 17½ million acres, nearly 2 millions are under Forest proper, *i. e.*, State Forest and Plantations, not including District Forests, against 1,933,611 acres in 1906-07. This increase is due to reservation of fresh areas under State Forests. It should be explained that though in the Explanatory Memorandum issued with Government Order No. 3473-8—R. 1100, dated 6th October 1897, under para 5 "Forest" means any land classed or administered as Forest and includes also District Forests, yet as the latter are not separately mapped, Amrut Mahal, Gomal and Kharab lands which under the Forest Regulation and Rules are treated as District Forests, are shown in the next column. The rights and privileges of raiyats in the latter relate mostly to grazing and dry fuel, while almost all other produce is collected by the Forest Department. Thus the area which should come under Forests in column 2, if properly classified, would be far in excess of the above total. The total extent of free grazing and hulbanni lands being about 4,855,000 acres and State Amrut Mahal Kavals about 427,000 acres as per area return furnished by districts, the aggregate total of lands really administered by the Forest Department would be about 7¼ million acres.

The area actually available for cultivation is about 8½ million acres or about half the total area for which returns are furnished. The total occupied area amounts to about 7⅓ million acres, of which 6 millions were cultivated during the year, an extent of about 1⅓ million acres forming assessed waste.

PART IV—Rainfall.

3. The rainfall during the year does not compare favourably with that in the previous year in the maidan districts of Bangalore, Kolar, Tumkur and Chitaldrug but was better in the two malnad districts of Shimoga and Kadur, the average for the State being 39·01 inches as against 44·42 inches for the previous year and 36·79 inches, the average for 38 years from 1870 to 1908.

PART I.

4. The total net area cropped (Table A-2) during the year 1907-08 was 6,011,671 acres, exhibiting a decrease of about 18,800 acres as compared with that of the previous year.

The total area irrigated (col. 13), *viz.*, 927,438 acres, was also less than that of the previous year by 9,193 acres.

5. *Areas under different crops.*

Dealing only with the principal crops, there was an increase in the area under the following heads as shown against each of them :—

Ragi	94,154	acres.
Oil-seeds	11,350	,,
Condiments and spices	15,136	,,
Fibres	6,130	,,
Sugar-cane	4,184	,,

663

While there was decrease under the following heads:—

Rice	12,926	acres.
Gram	49,145	,,
Other food grains including pulses	66,060	,,
Orchards and garden produce	25,512	,,
Miscellaneous food crops	20,487	,,

TABLE C.

6. The incidence of Land Revenue (excluding cesses) per head of the population for the whole State, including wholly or partially revenue-free areas, was Rs. 1-13-2 during the year as against Rs. 1-12-9 in the previous year, while the incidence in the fully assessed area works out at Rs. 1-14-5 per head as against Rs. 1-13-10 in the previous year.

TABLE D.

7. The number of raiyatwari holdings decreased from 1,041,378 in 1906-07 to 1,030,594 in the year under review, and their gross area was 6,909,066 acres as against 6,845,525 acres in the previous year. The average area per holding was 6·70 acres with an average assessment of 8·93 rupees as against 6·57 acres and 8·75 rupees, respectively, in the previous year.

The number of estates under "wholly or partially revenue-free tenure" was 95,337 with an aggregate area of 1,788,329 acres as against 96,536 with 1,786,259 acres in the previous year.

TABLE E.

8. There were during the year, 1,318 transfers of land involving 7,250 acres, by order of Courts as against 1,363 involving 9,793 acres in the previous year. Transfers by private contract or gift, numbered 15,954 comprising 85,080 acres as against 14,163 with 75,399 acres in 1906-07.

TABLE G.

9. While all other returns are for the official year the return relating to coffee alone is for the calendar year. The year 1907 was a good one for coffee as the yield during the year, *viz.*, 13,581,220 lbs. (about 136 lbs. per acre) was more than double that (*viz.*, 5,964,544 lbs.) of the previous year, while the area under crop was less than that of the previous year by 1,313 acres.

TABLE H.

10. The area under cinchona is purely nominal, the extent cultivated during the year being the same as in the last year, *viz.*, 112 acres.

PART II—Estimated out-turn of certain selected crops.

11. There was a decrease of 94,000 khandies in the out-turn of paddy during the year which was due to decrease in the area under crop. For the State as a whole, the average out-turn was about the same as in the previous year, *viz.*, 9·8 against 10 annas.

The area under paddy was greater than in the previous year in all the districts except Bangalore, Tumkur and Chitaldrug, where there was a decrease of about 6,000, 6,500 and 8,600 acres, respectively. But the out-turn was larger only in the districts of Mysore, Kadur and Shimoga. The crop must have fared very badly in the Bangalore District where the yield was so low as 118,298 khandies as against 252,386 khandies in the previous year.

12. Although the total area under ragi during the year rose by about 94,000 acres, there was a fall of about 708,000 khandies in the out-turn. The area under crop increased in all the districts except Kolar and Kadur, but the out-turn was poorer in all the districts except Hassan, Kadur and Shimoga. The crop in the Tumkur District fared very badly, the out-turn being about 50 per cent of the previous year in spite of an increase of about 41,000 acres in the area under crop. The out-turn for the whole State averaged at 7·4 annas against 9·1 in the previous year.

664

13. There was a decrease in the area under horse gram of about 13,800 acres, while there was an increase in out-turn of about 16,000 khandies. In the districts of Mysore and Kadur, there was an increase in out-turn notwithstanding decrease in area, while in the Chitaldrug District there was a decrease in out-turn in spite of an increase in area.

14. The area under cholum during the year was greater than in the previous year by about 5,000 acres, and there was an increase of 18,000 khandies in the out-turn. The Mysore District yielded a better crop, the out-turn being about 80,500 khandies more than in the previous year notwithstanding a slight decrease (1,400 acres) in the area under crop.

15. The total area under sugar-cane was 44,550 acres exhibiting an increase of 4,200 acres over that of the previous year, with an excess of about 107,800 maunds of jaggory in the out-turn.

PART III—Prices of some principal articles of food.

16. The prices of important food-grains, (*viz.*, rice, ragi, cholum and Bengal gram) were generally higher during the year under review as compared with the previous year except during the first two or three months.

Taking the annual average price of rice, 2nd sort, and ragi in 1886 to be 100, the prices that obtained in 1907-08 are represented by 163 and 220 respectively.

EXPLANATORY MEMORANDUM ON THE ANNUAL AGRICULTURAL STATISTICAL RETURNS A TO E AND INSTRUCTIONS FOR COMPILING THEM.

1. The revenue year commences on 1st July and ends on 30th June. The returns are due in this office on or before the 15th August following.

2. *Table A.*—Table A consists of four sections, *viz.*, A-1, A-2, A-3 and A-4, and contains figures for districts (pages 1-9) as well as for taluks (pages 25-105).

3. *Table A*-1.—Column 2 shows the gross area as ascertained by the Survey and Settlement Department, and is subject to correction according as errors are discovered in re-survey of tracts.

(*a*) Column 3 shows the areas of alienated tracts (such as Jahgir, Jodi, Sarvamanyam, and Kayamgutta villages) for which the statistics required for the other sections of the table are not at present forthcoming in whole or in part. When such statistics become available, the area in this column will be reduced and that in column 4 will correspondingly be increased.

(*b*) Column 4 gives the remainder which is dealt with in Tables A-2 and A-3.

4. *Table A*-2.—Column 2, "Forest" means any land classified or administered as forest under the Forest Rules, and includes District Forests and State Forests and Plantations separately mapped. Details of these should be invariably noted at foot of the return.

(*a*) Column 3 includes land absolutely unfit for cultivation, land reserved as pasture (gomal lands and kavals of sorts), public topes and Government plantations, and also all lands covered by buildings, roads, water, etc., or otherwise devoted to uses other than agriculture. When with due sanction any of these areas are made available for cultivation, they should be transferred from this column to column 5 or 6. The extent of "Pot Kharab" forming part of survey numbers should be included under this column, the same being excluded from columns 4, 5 and 6.

(*b*) Column 4 shows the area of assessed unoccupied land.

(*c*) Columns 5 and 6 show the areas of assessed occupied land not cultivated ("Kabuli-kanjar") and cultivated respectively as found in the abstract at foot of the Pahani Account (Village Account Form No. 3). Minor Inams in Government villages are included herein. In Mysore there is no system of fallows properly so called. Column 5 will therefore show land in occupation kept uncultivated from whatever cause.

(*d*) The total of these five columns will, of course, equal the figure shown in column 4 of Table A-1.

(*e*) Columns 8 to 12 show only the actual area of irrigated land, areas (if any) cropped more than once being reckoned but once.

(*f*) Columns 14 to 17 should contain the actual area of irrigated crops, areas cropped more than once being counted as separate areas for each crop.

5. *Table A*-3.—This is based entirely on the Pahani Account (Village Account Form No. 3), and shows the gross cultivated area under each crop irrespective of irrigation and double cropping, the area under the latter being included in the statement but subtracted in column 42. The area dealt with is that shown in column 6 of Table A-2. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the shanbhog on his own judgment. The areas comprised in this return are the areas actually sown, whether the crop comes to maturity or not. The failure of the crop should affect not its area but its out-turn. Where fields owing to the failure of the first sowings have been devoted to other crops, the area sown by the first sowing should be omitted.

The crops to be selected for inclusion in certain heads of this table are as follows:—

Column 9.—*Gram* (pulse) should include horse gram, Bengal gram, green and black grams.

Column 10.—*Other food grains including pulses.*—Same, haraka, navane, avare or ballar, tuvar or togari, tadagani or alasandi, etc.

667

Column 15.— *Others (oil-seeds)*.—Castor oil-seeds, inferior sesamum (hutchellu), groundnut or nelakadalekayi, honge, ippe, etc.

Column 17.—*Condiments and spices.*—Pepper, cardamon, chillies, cummin seeds, coriander seeds, ginger, mustards, turmeric, onions, garlic, mentya, etc.

Column 22. *Others (Fibres)*.— Pundi, sanabu, etc.

Column 27.—*Others (Dyes)*.—Rangumale, etc.

Column 29.—*Coffee* should be both malnad and maidan. The area covered by both mature and immature plants should be entered.

Column 36.—*Fodder crops.*—Kaki jola, etc.

Column 37.—*Orchards and garden produce.*—Mango, apples, figs, plantains, oranges, pomegranates, etc. The area of cocoanut, areca and betel-leaf gardens should also be included.

Column 38.—*Miscellaneous food crops.*—Vegetable gardens, potatoes, etc.

Column 39.— *Miscellaneous non-food crops.*—Mulberry, etc.

6. *Table A-4.*—This table deals with agricultural stock and should include live-stock in Municipalities. Oxen and buffaloes not old enough for work or to produce young should be treated as "Young stock" in this return.

Until 1898-99, statistics of live-stock were collected every year by the shanbhog and patel of each village by inquiry and inspection, as a part of the year's jamabandi routine. Government directed, in their Order No. 7601—615, dated 24th April 1899, a quinquennial census to be taken and the repetition of the figures of such census as statistics for the ensuing four years. Consequently the figures contained in the statement for the two years 1906-07 and 1907-08 are those obtained at the Census of September 1904.

7. *Table B.*—This is a statement showing the average for the year of the prices current of certain articles. It is printed in this collection, as Part III.

8. *Table C.*—This table indicates the relation between area, population and land revenue or in other words the mean burden of the State assessment on the land assessed to it and on the community at large. The tenure to which this table (for the Mysore State) relates is entirely raiyatwari.

(*a*) Column 3 (*a*) represents the area of alienated villages, plus the area of unoccupied assessed waste land in Sirkar villages (4 of Table A-2). The area of minor inams is not, however, included in this column, as a proportionate deduction cannot be made in the corresponding population.

(*b*) Column 3 (*b*) represents the area withdrawn from cultivation and should therefore exhibit the total of the areas shown in columns 2 and 3 of Table A-2.

(*c*) Column 4 (*a*) exhibits the area of occupied lands (Sirkar and minor Inam) in Government villages and should therefore equal the sum total of the figures in column 5 and column 6 of Table A-2 (current fallows and net area cropped during the year).

(*d*) Column 4 (*b*) exhibits the area actually cultivated. The figure under column 6 of Table A-2 will therefore be repeated here.

(*e*) Column 5 should exhibit the total realizable Land Revenue including Miscellaneous Land Revenue of the whole district for the year after excluding arrears for past years. The figure to be entered here will therefore be that which represents the fixed demand under these heads *plus* Miscellaneous Land Revenue and *minus* remissions under defined rules, and *minus* also irrigation cess merged in the assessment as shown in the list appended to Government Proceedings No. R. 212, dated 30th July 1894.

(*f*) Columns 6 and 11.—The population according to the most recent decennial census will be entered in column 6 subject to such alterations as are necessitated by any change in the constitution of the districts, and the figures in column 11 are subject to such alteration as may be necessitated by alteration in the area of "fully assessed land" by the resumption of alienated villages or other causes.

(*g*) Column 7 is arrived at by column 5 being divided by column 6.

(*h*) Column 8 does not include Miscellaneous Land Revenue and Land Revenue on alienated villages which are included in column 5.

(*i*) Column 9 is arrived at by column 8 being divided by column 4 (*a*).

Column 10 is arrived at by column 8 being divided by column 4 (*b*).

Column 12 is arrived at by column 8 being divided by column 11.

668

9. *Table D.*—The form prescribed by the Government of India is intended to show the principal varieties of tenure held direct from Government. For Mysore (where the prevailing tenure is raiyatwari and the accounts are kept villagewar), the first four classes and classes VII and VIII will be left blank, all raiyatwari holdings will be included in class V, the heading thereof being altered from "Peasant proprietors paying separately" to "small holdings held separate and direct from Government (raiyatwari tenure)" and all inams (Jahgirs, whole Inam and Kayamgutta villages and minor inams in Sirkar villages) will be entered in class VI. Lease-holders of gold mines will be shown under class IX "others."

(*a*) (1), Number of estates.—This represents practically the number of separate pattas issued or khates recorded in the Land Revenue Register. Two or more estates belonging to the same proprietor, if they are separately recorded in the Revenue Ledgers and form the subjects of separate pattas, will be separately reckoned for this return.

(*b*) (2), Number of villages.—This shows the total number of villages (primary of course) populated and unpopulated, *i. e.*, the areas constituted as villages by the Survey and Settlement Department.

(*c*) (3), Number of holders.—One proprietor may be reckoned twice or oftener as the owner of two or more estates separately recorded according to the number of pattas held by him.

(*d*) Item 5½, Gross assessment.—Between items 5 and 6 of the Government of India form, an item numbered 5½ should be opened to show "gross assessment." This in the case of raiyatwari lands will be the survey assessment and water-tax, and in the case of alienated lands it will be combined quit-rent and water-rate (if any) payable to Government: in both cases without deducting remissions and other deductions, if any.

10. *Table E.*—This table is intended to show the number of voluntary and compulsory transfers of ownerships of lands and the area so transferred. By "voluntary transfers" are meant transfers made by actual contract or gift. Transfers by inheritance are not to be taken into account, nor non-permanent transfers such as leases, mortgages, etc. Only permanent transfers (for instance by sale or gift) should be included when the parties concerned apply for and obtain transfer of "Revenue Registry." These voluntary transfers will be entered in columns 4 and 5 and columns 8 and 9 (private contract or gift). On the other hand under heading "By order of Court," columns 2 and 3 and columns 6 and 7 are included—

(1) Changes of registry under decrees of Civil and Revenue Courts whether the decrees were passed on disputes regarding title or by reason of debts incurred by the judgment-debtors, and

(2) All cases in which lands are sold for arrears of revenue due to Government and purchased by private parties.

(*b*) Cases in which lands sold for arrears of revenue due to Government are bought by Government will be excluded from this table.

The particulars contained in columns 2 to 21 should be entered for each district opposite to details under column 1 "Class of tenure," *viz.*, (*a*) Revenue-paying and (*b*) wholly or partially revenue free.

The information contained in Table E will be entirely based upon that *furnished for each village* in Village Account Form No. 6 (Statement of Increase and Decrease) and its enclosure.

EXPLANATORY MEMORANDUM ON THE STATISTICS RELATING TO AREA AND YIELD OF PRINCIPAL CROPS.

The estimates of out-turn of crops comprised in the following pages are based upon the Village Account Form No. 3 (Pahani Takhta).

2. In this account, the area, assessment and other particulars of each field are entered from the permanent village accounts ; and for each survey number, the estimated area under each crop is entered by actual field inspection every year. The inspection is to be made twice in the year to correspond with cultivation and crop time. An abstract is subjoined to the account showing the aggregate estimated area under each of the fifteen principal crops enumerated in the prescribed form.

3. In 1897, the opportunity was taken to utilize this account for estimating the year's yield of the harvest under each of five selected crops, *viz.*, paddy, ragi, horse gram, cholum and sugar-cane. It was ordered that this estimate should be made by tabulating the area under each crop in the village, in a form which was prescribed as an enclosure " to the Pahani Takhta, Village Account Form No. 3." It was directed that as a rule, that is to say, except when the Deputy Commissioner would otherwise direct under Section 10 (*a*) of the Mysore Famine Code, the return should correspond with the two pahani inspections, *viz.*, once before the jamabandi about the second fortnight of October while the crops are standing, and a second time after the cultivation season is over at the end of January following. Under these orders, the return is, in the first instance, prepared for each village by its shanbhog and submitted to the taluk office, where, after being examined, it is compiled for the entire taluk and transmitted to the Deputy Commissioner who, in his turn, submits to this office an abstract statement talukwar for his district before the end of April every year.

4. The out-turn is estimated for each village taken separately by the shanbhog and patel who from their intimate knowledge of the locality, may be relied upon to judge in this matter as well as possible for the purposes of a rough approximate estimate.

5. The out-turn is stated in annas, *viz.*, '20 annas,' '16 annas,' '8 annas' and '4 annas' and less which would respectively represent 'bumper,' 'average,' 'middling,' and 'bad harvests.'

6. The aggregate estimated area under each crop as per pahani abstract is distributed under these four classes, and arithmetically reduced to the equivalent area under a normal, that is to say, a fair average or 16 anna crop. The standard actual yield of a normal crop per acre (16 annas) in a fairly good season is fixed for the taluk as a whole, after careful local inquiry once for all, and not afterwards altered without the previous sanction of Government. The estimated out-turn for the entire taluk is calculated on this basis, and the results for the years 1906-07, and 1907-08 are exhibited in the following pages.

(For full details of the method, see the following standing orders on the subject :—

(1) Government Proceedings No. 6150—R. 2096, dated 9th January 1897.

(2) Government Proceedings No. 7866—R. F. 130-93, dated 10th March 1897.

(3) Government Proceedings No. 5716—R. F. 130-93, dated 21st February 1899.)

Entry forms are supplied on application to the Superintendent and exhibitors are requested to use these.

The number of exhibits in all classes and sections should exceed the number of prizes offered, otherwise the Judges will be authorised to reduce the full value of such prizes.

6. It shall also be competent for the Judges to reduce the amount of prizes if, in their opinion, the articles exhibited do not merit the full sums.

(6) It will be open to the Judges to withhold any or all the medals in any year on the ground of deficiency of merit in the exhibits.

* Relief to weavers.

(a) The returns were not received from the District Office, Chitaldrug, Sub-Division Office, Davangere, and the taluks of Channagiri and Sorab.

N. B.—(1) The Amildar of Srinivaspur reports that a sum of Rs. 260 which ought to have been brought under "Advances for restoration to minor tanks" was, by mistake, carried against "Advances for maintenance of restored tanks" in the previous returns. This has been corrected in the present statement.

(2) Some of the taluks having failed to furnish the required information, the details given above are incomplete.

(3) he figures under "Loans to Artizans" in the Bangalore District are in *excess of the allotment sanctioned for the purpose*, as advances are made also out of the realizations from the sale of cloths.
